and Nanton Avenue

The City Council, on October 7, 1969, following a Public Hearing on the matter, passed the following motion:

"THAT the area known as the unsubdivided portion of D.L. 526 and Lot 1, Block 92, D.L. 526, bounded by King Edward Avenue, Arbutus Street, Normandy Private Hospital, Prince of Wales Secondary School site and Valley Drive, be rezoned from RS-1 One Family Dwelling District to a CD-1 Comprehensive Development District, subject to a scheme of development being submitted through the Director of Planning, for approval by Council".

The Board of Administration submitted a report to Council on April 10, 1972 on the revised scheme of development and a request to further amend the original application by adding two additional uses (personal care home and private hospital). The Council referred the requested amendment to this Public Hearing.

In the meantime the applicants, Marathon Realty submitted a revised scheme of development providing a public park of approximately 3½ acres and the re-location of some town house and apartment buildings.

It was noted that the zoning was RS-1 One Family Dwelling District and that the proposed zoning will be CD-1 Comprehensive Development District.

Following an explanation by the Deputy Director of Planning and Civic Development, the Council heard the following delegations:

(a) Arbutus Home Owners Association - Mr. J.J. Volrich

The Association made a number of proposals as outlined in a brief circulated such as:

cont'd....

Arbutus Street, Valley and Eddington Drives
continued:

- (i) Building height adjoining arterial streets to be no more than 3 storeys

(b) Citizens Council on Civic Development - Mr. H. Weinreich
Generally approving of the revised scheme of development

(c) Mrs. McKechnie

Commenting as to why construct a theatre and a medical dental building in the complex when there are like facilities in the immediate area.

(d) Representatives of Marathon Realty also addressed the Council.

On a question raised the Deputy Director of Planning and Civic Development advised the Council that the scheme did include two 6-storey buildings which were included in the original plans but had been omitted in error from the present current reports.

There being no further delegations it was,

MOVED by Ald. Broome,

- (i) The proposed text amendment, if approved, would provide regulations for the By-law which would:

Mr. Baker expanded on his client's objections and recommended Council not approve the application.

Mr. L. Barter, resident of 1530 Mariner's Walk, supported the rezoning subject to continuation of the sea walk and provision of the easterly walkway.

MOVED by Ald. Ford,

THAT Council approve the proposed text amendment, as recommended by the Director of Planning, including:

1. establishing the requirement of providing an alternate public walkway on the easterly (waterfront) side of the proposed building, connecting at the north end to the 4.57 m (15 ft.) wide pedestrian walkway and sewer right-of-way.
2. securing public access to, and use of, the public open space.

- LOST

(Aldermen Campbell, Davies, Eriksen and Rankin opposed)

3. Text Amendment - CD-1 Comprehensive

- place an upper limit on floor space for all approved uses;
- limit the maximum number of dwelling units to 461 (existing);
- allow for the exclusion of residential balcony enclosures from floor space ratio calculations;
- establish minimum required off-street parking and loading spaces.

(ii) Any consequential amendments

Cont'd....

Text Amendment - CD-1 Comprehensive
Development District Pertaining to
4255 Arbutus Street - Arbutus Village (cont'd)

The Director of Planning recommended approval subject to the following conditions proposed for adoption by resolution of Council:

- (a) That the detailed scheme of development in a development permit application be first approved by the Director of Planning, having particular regard to the following:
 - venting from any proposed restaurant use to be located as far away from the residential development as possible and directed away from the residential development
 - the submission of a detailed landscape plan for the whole of the shopping centre area, including perimeter landscaping and landscaped islands, and that required landscaping be maintained in good condition.
- (b) That the approved form of development be generally as prepared by Waisman, Dewar and Grout, Architects, stamped "Received, City Planning Department, October 18 and July 9, 1985".
- (c) Prior to enactment of the amending by-law, that the owners of the property enter into a legal agreement, to the satisfaction of the City Engineer and the Director of Legal Services, accepting responsibility for the cost of left-turn channelization and related works on Arbutus Street.

Mr. D. Thomsett, Zoning Division, reviewed the application.

Mr. B. Castle, Marathon Realty Company, explained the reasons why his company considers it vital to upgrade and renovate this shopping centre. Marathon Realty agrees with the conditions proposed by the Director of Planning.

The following spoke in opposition to the proposed expansion:

- Mr. John Penny, 302-2140 Briar Avenue (representing Strata Council VR778)
- Mrs. B. Daigle, 4195 Parkway Drive
- Mr. D. Craig, 106-2140 Briar Avenue
- Mr. H. Philipp, 402-2140 Briar Avenue
- Mr. W. Clancey, 7-4350 Valley Drive

Some of the bases for opposition were:

- The proposed relocation of the restaurant to the expanded north side would impact negatively on homes adjacent to this area because of:
 - cooking odours exhausting into air;
 - increased noise from restaurant patrons and also noise from the restaurant exhaust fans;

Cont'd.....

Text Amendment - CD-1 Comprehensive
Development District Pertaining to
4255 Arbutus Street - Arbutus Village (cont'd)

- security hazard to the residents as proposed restaurant would be open after the centre has closed;
- the expansion would detract from the current "village" atmosphere of the centre;
- do not favour removal of trees and shrubs from the parking lot;
- the proposed expansion at the north-east corner would be too close to residences.

Responding to the concerns expressed, Mr. Castle agreed it is not possible to totally eliminate cooking odours from the restaurant.

MOVED by Ald. Ford,

THAT the application be approved subject to the conditions proposed for adoption by resolution of Council and set out in this Public Hearing Minute, except that

- (i) there not be a physical projection beyond the north-east corner of the existing shopping centre;

and

- (ii) a restaurant not be permitted in the north-east corner of the shopping centre.

- CARRIED UNANIMOUSLY

4. Text Amendment: Floor Space Ratio
Increases for Social Housing

Council considered an application by the Director of Planning as follows:

TEXT AMENDMENT: FLOOR SPACE RATIO INCREASES FOR SOCIAL HOUSING

- (i) The proposed text amendment, if approved, would amend the RM-3A1 and RM-3B District Schedules by deleting the floor space ratio increase provision that allows, under certain circumstances, development above a maximum floor space ratio of 1.45.
- (ii) Any consequential amendments.

Mr. P. Whitelaw representing the Fairview Heights Planning Committee, advised the Committee is opposed to any more non-market housing being located in the area.

MOVED by Ald. Campbell,

THAT the application of the Director of Planning for text amendment be approved.

Clause No. 1 cont'd

- (c) THAT, prior to approval by Council of a change to the form of development to allow enclosure of the lower mall space, a development application for enclosure of 200 m² of lower mall space as leasable commercial space be approved by the Director of Planning, having particular regard to residents' needs and opinions concerning the maintenance of direct and convenient access to the recreation centre from all dwelling units on site.

The agenda included the following summary of the proposed changes:

SUMMARY OF PROPOSED CHANGES

Zone	CD-1	CD-1
Uses	Shopping Centre uses including: Retail, Office, Theatre, Service Commercial and customarily ancillary uses. On the balance of the site: multiple dwellings, SNRF, park & customarily ancillary uses.	Add to Shopping Centre uses: Artist Studio, Library, Fitness Centre, Child Day Centre, and Arts, Self-Improvement or Business School. No change.
Permitted Floor Area in Shopping Centres	33,713.13 m ²	13,713 m ²

Cont'd

Clause No. 1 cont'd

Mr. Tom Phipps, Planner, reviewed the application noting the owners of the Arbutus Village Shopping Centre have been unsuccessful in leasing the existing lower mall space for retail and office uses. They propose to enclose 200 m² at the north end of the lower mall circulation area and expand upon what has currently been a very small leasable space. This space could be used for any of the uses listed in the application.

The Director of Planning supported concept of a broader range of uses and improved services to the public but proposed that approval be subject to conditions respecting minimum parking spaces for the fitness centre, improved access to the lower level from the main parking lot, maintenance of direct and convenient access to the recreation centre from the surrounding dwelling units; limitation of the child day care facility to child minding and pre-school uses and also restriction of the school uses to a maximum of 755 m² in total floor area.

Mr. Phipps advised the conditions should meet some of the concerns expressed by the community at meetings held in the area by the applicant, and in letters and petitions forwarded by the City Clerk to members of Council (on file). These included concerns about noise, increased traffic, potential for strangers within the Village Park and on the Strata properties. A major concern was that enclosure of the lower mall space would deprive Village residents of the use of the current lower level north entrance to the community centre.

In response to questions respecting the limitation of the day care facility, Mr. Phipps advised residents of the adjacent strata units were particularly concerned about location of the outdoor play area for the day care facility as initially proposed, since the configuration of the townhouses and strata units around the narrow Arbutus Village park tended to amplify sound, and children's voices would reverberate among the buildings.

Mr. Bob Heaslip, for the applicant, related the background to the application and the concerns respecting the continuing viability of the mall in view of ongoing problems in leasing lower mall space. The proposed uses were presented recognizing the residential nature of the Village, and increased service to its residents, as well as the broader community. The day care facility was felt appropriate because of current concerns respecting adequacy of day care in the city; it would provide flexibility for use of the vacant space and meet the requirements of the community.

Cont'd

Clause No. 1 cont'd

Mr. Heaslip referred to drawings to illustrate the lower mall area, circulation patterns and access routes to the various facilities, including the recreation centre. He felt the access concerns could be addressed at the development permit stage. Mr. Heaslip also noted the applicants would be agreeable to the limitation of the child care facility to child minding and pre-school uses, if Council so directed. Photographs of access points and buildings surrounding the park were circulated and are on file.

The Mayor called for speakers for or against the application and the following addressed the Public Hearing:

Mrs. Beverley Mare, area resident, advised information to the Village residents had been vague and nothing had been put in writing. There had been no notification of the changes proposed in the past week. As residents of the Village since 1974, who enjoyed the amenities offered by the recreation centre, Mrs. Mare and her husband disagreed with any changes to the by-law that would reduce or limit their use of the centre. She felt Council was being asked to approve carte blanche rezoning which would deny residents any voice in future proposals as they would only require approval of the Director of Planning.

Mr. Steve Floris, Chairman, Strata Plan VR 610 (King Edward Apartments), identified access to the recreation centre as a major concern. If this was closed off, the Village residents, many of them elderly, would have to detour through the park. At night the area was poorly lit and this would present additional hazards as the park had a history of criminal activity.

The proposed child day care centre was another concern as it was felt seniors and day care centres were incompatible. Chairpersons of the Village Strata Corporations, at a recent meeting, had been pleased to learn their objections had been listened to and the owners were no longer proposing a full day care centre. Mr. Floris stated his Strata Council had no objection to the child minding/pre-school proposal.

Mrs. Teresa Coomes, representing owners of 75 townhouses in Strata Plan VR 563 (brief on file), stressed residents cared about the continuing financial viability of the shopping centre, but had serious concerns respecting noise, loitering and littering in the Village Park. Other concerns were ease of access to the recreation centre, security and safety of persons and property due to the increasing number of strangers who would visit the shopping and business centre, and increased car and pedestrian traffic impacting on the private road and parking spaces.

Cont'd

Clause No. 1 cont'd

Mrs. Tobie Sandomirsky, Strata Plan VR 622, requested the north access remain open and better lighting be provided.

During discussion, Council members noted the by-law changes proposed related to uses only. The form of development would come later in the development process and many of the residents' concerns would be addressed at that time. An Alderman who had earlier inspected the site and the lower level access to the recreation centre, felt the access tunnel was dimly lit and the lighting should be improved.

Council members also noted child care facilities had posed no problems in other communities. None could recall receiving a single complaint.

MOVED by Ald. Bellamy,

THAT the application be approved, subject to the conditions proposed by the Director of Planning, as set out in this Minute of the Public Hearing, except that condition (c) be amended to read as follows:

THAT, prior to approval by Council of a change to the form of development to allow enclosure of the lower mall space, a development application for enclosure of 200 m² of lower mall space as leasable commercial space be approved by the Director of Planning, having particular regard to residents' needs and opinions concerning the maintenance of direct, safe and convenient access to the recreation centre from all dwelling units on site;

FURTHER THAT the draft by-law be amended before presentation for enactment to permit the full range of child care uses.

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.
