SPECIAL COUNCIL MEETING

A Special Meeting of the Council of the City of Vancouver was held on Thursday, March 6, 1986 at Comox Auditorium, St. Paul's Hospital, 1056 Comox Street at approximately 7:30 p.m. for the purpose of holding a Public Hearing to amend the Zoning and Development By-law.

PRESENT: Mayor Harcourt
Aldermen Bellamy, Brown, Campbell,
Davies, Ford, Pail,
Rankin, Yee and Yorke

ABSENT: Alderman Eriksen

CLERK TO THE COUNCIL: Mrs. J. Thomas

COMMITTEE OF THE WHOLE

MOVED by Ald. Bellamy,
SECONDED by Ald. Ford,

THAT this Council resolve itself into Committee of the Whole, Mayor Harcourt in the Chair, to consider proposed amendments to the Zoning and Development By-law.

- CARRIED UNANIMOUSLY

1. Rezoning Application - Tudor Manor,
1311 Beach Avenue

Council considered an application by Paul Merrick Architects on behalf of N. A. Properties Ltd., as follows:

REZONING: LOCATION - TUDOR MANOR, 1311 BEACH AVENUE (Lots 16-19,
Block 40, D.L. 185, Group 1, N.W.D. Plan 92)

Present Zoning: West End District (WED)

Proposed Zoning: CD-1 Comprehensive Development District

(i) The draft CD-1 By-law, if approved, would permit the use and development of the site generally as follows:

- a maximum of 111 multiple dwelling units;
- accessory uses customarily ancillary to the above;
- a maximum building height of 64.01 m (210 ft.);
- a maximum floor space ratio of 3.0, calculated pursuant to the proposed CD-1 By-law;
- provisions regarding off-street parking and loading.

(ii) Any consequential amendments.

Cont'd.....

Rezoning Application - Tudor Manor,
1311 Beach Avenue (cont'd)

The Director of Planning recommended approval subject to the following conditions proposed for adoption by resolution of Council:

- (a) That the detailed scheme of development in a development permit application is first approved by the Director of Planning, after receiving advice from the Vancouver Heritage Advisory Committee, and having particular regard to:
- reduction in the proposed building height of the low-rise section to that of the existing Tudor Manor building.
 - designation of the retained facade and forecourt, under Schedule B of the Heritage By-law including formal agreement by N.A. Properties Ltd. that such rezoning provides full and fair compensation for the obligations of heritage designation as set out in the Heritage Conservation Act.
- (b) That the approved form of development is generally as prepared by Paul Merrick, Architect, and stamped "Received, City Planning Department August 2, 1985, provided that the Director of Planning may allow alterations to this approved form of development when approving the detailed scheme of development as outlined in the reduction in FSR incorporated in the CD-1 By-law and in resolution (a) above.

The Director of Planning introduced the staff review, noting the private and public goals associated with the development proposal.

Mr. J. Coates, Zoning Division, summarized the departmental position noting Tudor Manor had great heritage value and there is considerable public support for its retention. However, the building is in a poor state of repair, requiring major changes to bring it up to building code requirements and renovation of the low density building would be uneconomic. The applicant's proposal to redevelop the property would achieve retention and restoration of the unique exterior front and two sides of Tudor Manor, and preserve and refurbish the forecourt and garden space fronting on Beach Avenue. The applicants further proposed to infill new multiple dwellings to a height of five storeys and locate a 22 storey tower on the eastern portion of the site. They were therefore seeking, in addition to the present maximum permissible f.s.r. of 2.2, added f.s.r. of 1.0, equivalent to the existing floor area of Tudor Manor; and an extension of the normal 20.1 m (60 ft.) height limit to the existing by-law maximum of 61.26 m (210 ft.). They estimate the added density and height will offset the costs associated with the retention, restoration and reincorporation of the existing Tudor Manor exterior into a new development.

Mr. Coates reviewed alternatives presented by the Save Tudor Manor Committee and responded to a number of concerns identified in the public information process. With the aid of drawings, he illustrated the amount of view reduction which might well be experienced by some residents in adjacent apartment blocks.

Rezoning Application - Tudor Manor,
1311 Beach Avenue (cont'd)

Representatives of N. A. Properties Ltd., Mr. D. Nelin, Development Manager, and Mr. Paul Merrick, Architect, commented on features of the redevelopment proposal illustrated with an audio visual presentation, slides and pictorial montages. They contended criticisms of "facadism" were ill-founded, since the concept had been successfully employed in other cities.

Dr. Harold Kalman, Commonwealth Resource Management, also spoke for the applicant. He submitted there were two options:

- (i) to demolish Tudor Manor and replace it with a new building conforming to density and development guidelines; or
- (ii) the proposal as submitted.

Mr. Cyril Leonoff, Chairman, Vancouver Heritage Advisory Committee, advised the Committee had been seeking a solution to the preservation of the Tudor Manor for 13 years. It was unanimously supportive of the development proposal now under consideration and commended the owner and architect for their initiative and commitment to Tudor Manor.

Ms. J. Hlavach, the City's Heritage Conservation Officer, also spoke in support.

The Mayor called for speakers for or against the application and representations were made by 32 persons.

Those opposing the proposed development spoke strongly against another high rise tower on the waterfront and claimed the additional f.s.r. bonus would create undue profits for the developer. They were also critical of 'facadism', submitting it had been a failure in other cities, and protested loss of views, increased density, traffic and parking problems.

Some of those opposed urged the retention and restoration of the existing Tudor Manor structure. Others supported a low profile 'envelope' development within existing zoning.

The speakers in support felt the facade and forecourt of Tudor Manor should be preserved at all costs and the development proposed represented an acceptable architectural solution.

SPECIAL COUNCIL MEETING MINUTES

FEBRUARY 24, 2000

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

PRESENT: Mayor Philip Owen
 Councillor Fred Bass
 Councillor Jennifer Clarke
 Councillor Daniel Lee
 Councillor Don Lee
 Councillor Sandy McCormick
 Councillor Sam Sullivan

ABSENT: Councillor Lynne Kennedy
 Councillor Tim Louis
 Councillor Gordon Price (Sick Leave)
 Councillor George Puil (Civic Business)

CITY CLERK'S OFFICE: Tarja Tuominen, Meeting Coordinator

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY
