4590 Earles Street

By-law No. 6582

(Being a By-law to Amend By-law 3575, being the Zoning and Development By-law)

Effective November 7, 1989

(Amended up to and including By-law No. 8169, dated March 14, 2000)

- 1 *[Section 1 is not reprinted here. It contains a Standard clause amending Schedule D (Zoning District Plan) to reflect this rezoning to CD-1.]*
- 2 The area shown included within the heavy black outline on Schedule “A” is rezoned to CD-1, and the only uses permitted within the said area, subject to such conditions as Council may by resolution prescribe, including design guidelines, and the only uses for which development permits will be issued are:
- Multiple dwelling;
 - Accessory uses customarily ancillary to the foregoing.
- 3 Floor Space Ratio
- 3.1** The maximum floor space ratio, calculated as if located in the RM-4N District, shall be 1.17, except that the following shall also be excluded from the floor space ratio calculation:
- (i) enclosed balconies and other features designed to reduce transit noise, provided the Director of Planning first approves the design of any such feature, and provided further that the total area of all such enclosures and other features does not exceed eight percent of the permitted floor area;
 - (ii) the following ancillary amenity facilities for the social and recreational enjoyment of the residents provided that the area of such excluded facilities does not exceed 20 percent of the allowable floor space:
 - saunas;
 - tennis courts;
 - swimming pools;
 - squash or raquetball courts;
 - gymnasium and workout rooms;
 - games and hobby rooms;
 - other related indoor uses of a social or recreational nature which in the opinion of the Director of Planning are similar to the above; and
 - (iii) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000. [8169; 00 03 14]
- 3.2** In computing the floor space ratio, site area shall be measured to include any land dedicated for street or lane purposes.
- 4 Dwelling Unit Density
The maximum dwelling unit density shall be 76.6 units per hectare (31 units per acre).
- 5 Height
The maximum building height measured above the base surface shall be 15.85 m (52 ft.).

Note: *Information included in square brackets [] identifies the by-law numbers and dates for the amendments to By-law No. 6582 or provides an explanatory note.*

- 6 Acoustics
All development permit applications shall require evidence in the form of a report prepared by a person trained in acoustics and current techniques of noise measurement demonstrating that the noise levels in those portions of the dwelling units listed below shall not exceed the noise levels set opposite such portions. For the purposes of this section the “noise level” is the A-weighted 24-hour equivalent (LEQ) sound level expressed in decibels.

Portions Of Dwelling Units	Noise Level (Decibels)
bedrooms	35
living, dining, recreation rooms	40
kitchen, bathrooms, hallways	45

[7515; 96 01 11]

- 7 Off-street Parking
- 7.1 Off-street parking shall be provided, developed and maintained in accordance with the provisions of the Parking By-law, except that a minimum of 1.0 space per unit shall be provided.
- 7.2 All off-street parking spaces shall be located in the side and rear yards and vehicular access shall be from the lane to be dedicated.
- 8 *[Section 8 is not reprinted here. it contains a standard clause including the Mayor and City Clerk's signatures to pass the by-law and to certify the by-law number and date of enactment.]*

By-law No. 6582 being a By-law to amend By-law No. 3575, being the Zoning and Development By-law

The property shown below (■) outlined in black is rezoned from CD-1 to CD-1 (amended)

SPECIAL COUNCIL MEETING

A Special Meeting of the Council of the City of Vancouver was held on Thursday, March 23, 1989, in the Council Chamber, at approximately 7:30 p.m., for the purpose of holding a Public Hearing to amend the Zoning & Development By-law.

PRESENT: Deputy Mayor Davies (Chairman)
Aldermen Baker, Bellamy, Eriksen,
Owen, Price and Rankin

ABSENT: Mayor Campbell, Civic Business
Alderman Puil, Leave of Absence
Alderman Taylor, Leave of Absence
Alderman Wilking, Leave of Absence

CLERK TO THE COUNCIL: Mrs. J. Thomas

COMMITTEE OF THE WHOLE

MOVED by Ald. Bellamy,
SECONDED by Ald. Eriksen,
THAT this Council resolve itself into Committee of the Whole,
Deputy Mayor Davies in the Chair, to consider proposed amendments to
the Zoning & Development By-law.

- CARRIED UNANIMOUSLY

1. Rezoning: Mount Pleasant Core Apartment Area

An application of the Director of Planning was considered as follows:

REZONING: LOCATION - MOUNT PLEASANT CORE APARTMENT AREA

Present Zoning: RM-3A Multiple and RT-2 Two-Family Dwelling
Districts

Proposed Zoning: RM-4 and RM-4N Multiple Dwelling Districts

- (i) The draft by-law, if approved, would rezone areas within the heavy black outline on the map below, as either RM-4 or RM-4N Districts. In this location, the RM-4 and RM-4N Districts would be complemented by design guidelines which would improve design quality of residential development by reducing building frontages, improving the design of open space, and indicating the types of sites where reduced front yards would be desirable.
- (ii) Any consequential amendments.

cont'd....

Rezoning: Commercial Drive East Lane (cont'd)

The Director of Planning recommended the application be approved.

Mr. R. Scobie, Acting Associate Director - Area Planning, referred to his memorandum of March 21, 1989 (on file) in which he submitted draft guidelines to control parking setbacks in the event Council requires heavy landscaping in conjunction with any parking. The Acting Associate Director recommended:

- (i) That the draft CD-1 By-law be amended, prior to granting approval 'in principle', to add the following after the listed use "parking":

", except that Section 4.7.7. of the Parking By-law shall not apply", and

- (ii) That the draft guidelines entitled "Commercial Drive 'East Lane' CD-1 Guidelines" be adopted 'in principle' and presented for approval when the By-law is brought forward for enactment.

There were no speakers for or against the application.

MOVED by Ald. Eriksen,

THAT the application be approved with the amendment proposed by the Acting Associate Director - Area Planning, as set out in this Minutes of the Public Hearing.

- CARRIED

(Alderman Owen opposed)

3. ~~REDACTED~~ 4590 Earles

An application of Linda Baker, Architect, was considered as follows:

TEXT AMENDMENT: LOCATION - 4590 EARLES STREET - CD-1 By-law No. 6319 (Lots 1-5 of 2, Blocks 118 and 119, D.L.s 36 and 51, Plan 2928)

Present Zoning: CD-1 Comprehensive Development District, By-law No. 6319

Proposed Zoning: CD-1 Comprehensive Development District (New)

- (i) The draft by-law, if approved, would permit conversion of the structure formerly used as a B.C. Hydro Substation to eleven one-bedroom dwelling units.
- (ii) Any consequential amendments.

The Director of Planning recommended approval subject to the following conditions proposed for adoption by resolution of Council:

- (a) That, prior to the enactment of the CD-1 By-law, the detailed scheme of development in a development permit application be first approved by the Director of Planning, having particular regard to:

- a revised plan of access from the parking area to the dwelling units, to the satisfaction of the Director of Planning.

Text Amendment: 4590 Earles Street (cont'd)

- (b) That the approved form of development is adopted in principle, generally as prepared by Linda Baker, Architect, and stamped "Received City Planning Department November 7, 1988", provided that the Director of Planning may allow minor alterations to this approved form of development when approving the detailed scheme of development as outlined in resolution (a) above.
- (c) That the applicant demonstrate in writing, to the satisfaction of the Medical Health Officer in consultation with the Director of Permits and Licenses and the Provincial Ministry of Environment, that any hazard associated with potential contamination of soil or building materials present on this site has been eliminated.
- (d) That the west seven feet of the site be dedicated for road, as well as the east 20 feet for lane.
- (e) That the applicant make provisions to the satisfaction of the City Engineer and the Director of Legal Services, for the undergrounding of all B.C. Hydro and B.C. Telephone services within and adjacent to the site from the nearest utility pole.

Mr. T. Phipps, Planner, Rezoning & Subdivision Group, reviewed the proposed text amendment which would permit the retention, restoration and conversion of the existing B.C. Hydro Substation to accommodate eleven one-bedroom dwelling units. He advised the Substation, built in 1911, is listed as a "B" building in the Vancouver Heritage Inventory which identifies it as the last remaining structure from the original inter-urban system. Initially, the height of 50 feet was a concern to the Director of Planning but an analysis of views and shadows failed to demonstrate a significant impact. The Nanaimo/29th Avenue Station Area Committee identified the building as a neighbourhood landmark and supported the residential use.

The Deputy Mayor called for speakers for or against the application and the following speakers addressed the Council:

Mr. & Mrs. S. Goudie, 3094 Kings Avenue, opposed the application. They contended the proposal did not conform to the original concept of semi-detached townhouses; the one-bedroom suites would detract from the existing family-oriented neighbourhood; the proposed changes do nothing to improve the aesthetic value of the building or the neighbourhood; and the height of 50 feet is almost double the original 30 feet restriction. A petition with 39 signatures supporting this position was submitted (on file).

Mr. Italo Fiorda, 4747 Manor, expressed opposition to the height and the fact one-bedroom condominiums would not attract family-oriented residents. He also noted the neighbours had been under the impression the Substation would be demolished and new townhouses developed on the site.

Mr. Ron Berry, 3033 Kings Avenue, advised his biggest objection to the proposal was that the renovated building would still look like a substation. The neighbourhood agreed to rezoning to CD-1 anticipating that new development would occur on the site.

Ms. Baker, the applicant, responded to some of the issues raised by the delegations. She advised the units would be marketed as self-owned strata condominiums, averaging 1,100 sq.ft. The building, while retaining some of its unique, landmark features, will be attractive, with balconies, new windows, and a neutral, sandblasted exterior finish.

cont'd....

Text Amendment: 4590 Earles Street (cont'd)

Mr. R. Scobie, Acting Associate Director - Area Planning, agreed that initially new townhouses had been contemplated for the site, however, demolition costs proved to be in excess of \$100,000. The current proposal represented a housing initiative that recognized the reality of dealing with a very old building.

Mr. Phipps pointed out a similar renovation had been successfully accomplished with the former Bank Vaults building on East 1st Avenue.

Council members noted the proposal offered an opportunity to replace an existing ugly building with badly-needed housing. If the project did not proceed, it was unlikely the structure would be demolished due to exorbitant demolition costs. It was emphasized, if approved, the development should proceed as closely as possible in accordance with the schematic drawings before the Public Hearing.

MOVED by Ald. Bellamy,

THAT the application be approved, subject to the conditions proposed by the Director of Planning, as set out in this Minute of the Public Hearing.

- CARRIED UNANIMOUSLY

4. Rezoning: Vacant Lot
North Side 3600 Block West 10th Avenue

An application of Michael Katz, Architect, was considered as follows:

REZONING: LOCATION - VACANT LOT, NORTH SIDE 3600 BLOCK WEST 10TH AVENUE (Lot 12 except part in Expl. Plan 14386, Block 55, D.L. 540, Plan 229)

Present Zoning: CD-1 Comprehensive Development District
Proposed Zoning: RS-1 One-Family Dwelling District

- (i) The draft by-law, if approved, would permit a one-family dwelling and customarily accessory uses and conditional uses which may be permitted subject to the regulations for the RS-1 District, and would repeal the existing CD-1 by-law which applies to this site.
- (ii) Any consequential amendments.

The Director of Planning recommended the application be approved.

Following a brief review by Ms. P. Johnston, Planner, Rezoning & Subdivision Group, the Deputy Mayor called for speakers for or against the proposal, and one speaker addressed the Public Hearing.

Mr. Alan Bough, 3643 West 10th Avenue, advised he owned the property to the east of the subject site and had no objection to the application.

MOVED by Ald. Eriksen,

THAT the application be approved.

Clause 1(a) and (b) (cont'd)

This development is also in keeping with Council's strategy of reducing traffic congestion by encouraging residential development in this area and reducing commuters. The application also provides for a substantial amount of bicycle parking within the new residential complex.

Staff Closing Comments

Staff offered no additional comments.

Council Decision

Prior to making a decision, several members of Council expressed the view that staff need to reconsider their approach when notifying residents about rezoning applications, as well as other City-related issues. Members of Council also referred to a previously requested report on waterfront tower height and Council expressed a desire to see this report as soon as possible.

MOVED by Cllr. Bellamy,

THAT this application be approved, subject to the conditions as set out in this minute of the Public Hearing.

- CARRIED UNANIMOUSLY

MOVED by Cllr. Price,

THAT the City Manager ensure that when the anticipated report from the Housing Centre on housing affordability comes back, it deals with the issues related to Triangle West and new neighbourhoods.

2. Balcony Enclosures and Acoustic Requirements

An application by the Director of Land Use and Development was considered as follows:

The proposed amendments to various zoning District Schedules, Official Development Plans and CD-1 Comprehensive Development District By-laws, would either:

- not allow any of the permitted residential floor area to be excluded from Floor Space Ratio (FSR) for enclosed balconies except in buildings existing prior to April 23, 1985 in which case the present regulations would apply; or

cont'd....

Clause No. 2 (cont'd)

- continue to permit a maximum of 8 percent of permitted residential floor area to be excluded from Floor Space Ratio (FSR) for balconies BUT to permit no more than half of excluded floor area to be enclosed; or
- permit no more than 8 percent of permitted residential floor area to be excluded from Floor Space Ratio (FSR) for enclosed balconies.

The proposed acoustic amendments would delete the acoustic requirement for balconies, terraces, patios, etc.

Amended Balcony Enclosure Guidelines and Policies are also proposed.

The Director of Land Use and Development recommended approval of this application.

Staff Opening Comments

Mr. Ralph Segal, Planner, provided background on this issue and introduced the options before Council this evening.

In 1964, in order to improve livability in higher density multiple dwelling developments, open balconies were excluded from FSR to a maximum of eight percent of residential floor area. In the early 1980s, the City received numerous requests from owners of units in existing buildings to enclose their balconies for reasons of poor insulation and acoustics, air drafts and other interior problems. In response, Council in 1985 adopted balcony enclosure guidelines by which enclosed balconies would continue to be excluded from FSR.

Subsequently, in response to the development industry's request for equity, Council permitted this exclusion to apply to new construction, subject to adherence to the guidelines. Since then, new buildings have, to an increasing degree, incorporated enclosed balconies as additional interior space displacing the private open space, the open balconies, for which the FSR exclusion had been originally provided.

Since enclosed balcony space has been successfully marketed at the full per square foot price of the rest of the dwelling unit, many developers have been more and more aggressive in seeking the full eight percent exclusion for enclosed balconies. This differs from a mix of open and enclosed balconies that were anticipated when the exclusion was first put in place.

cont'd....

Clause No. 2 (cont'd)

With the aid of photographs distributed to Council (on file in the City Clerk's Office), Mr. Segal explained that enclosure of most or all balconies bulks up buildings by filling in the volumes of open balconies and intends to create less residential, more office-like buildings. Exclusions from FSR are usually given to encourage developers to provide facilities that are considered important for livability but would likely not be provided without that incentive. In this case, bonuses are being permitted when they the negative affect of displacing the private open space for which the FSR exclusion was intended.

Recommendation A1 would eliminate the FSR exclusion for enclosed balconies except in the buildings existing prior to 1985, as per the original intent of the balcony enclosure provisions. Alternatively, should Council consider that enclosed balconies do have merit, A2 is offered which states that no more than half of the excluded balcony area may be enclosed. The third option, A3 is to simply allow outright the full eight percent exclusion to be enclosed.

This application also proposes an acoustic amendment. At present, acoustic requirements in many district schedules and CD-1 by-laws apply to standards in both rooms within the unit as well as exterior balconies and patios. As the current standard often requires balconies to be enclosed, even when this is not desired, the proposed amendment will delete this requirement. Mr. Segal also explained that amendments are proposed to the balcony enclosure guidelines which would delete provisions calling for easy conversion of enclosed balconies back to open balconies, as well as adding several additional clauses which will clarify the design intent in new construction.

Responding to a question from a member of Council, Mr. Segal advised of an error in the memorandum dated July 18, 1995 from the City Clerk, which referred this matter to Public Hearing. Recommendation A1 makes reference to excluding floor space ratio for enclosed balconies except in buildings existing prior to April 23, 1995. This should read April 23, 1985.

A member of Council enquired whether these guidelines would permit a style of balcony sometimes referred to a french balconies. Mr. Segal advised this style would not be permitted under the proposed guidelines.

Council members also enquired whether thresholds will still be required between the interior unit and the closed balconies. It was confirmed the proposed guidelines still contain this threshold requirement.

cont'd....

Clause No. 2 (cont'd)

Correspondence

All correspondence received prior to this matter being referred to Public Hearing was included as Appendix E in the Council report. One additional letter stressing the need for more open balconies in Vancouver and another favouring option A2, were also received.

Speakers

The Mayor called for speakers for and against the application, and the following addressed Council.

Mr. Hans Schmidt, representing the Society of Soundscape Preservation, expressed concern with the proposed deletion of acoustic requirements, on the grounds that if these requirements are deleted, the City is simply accommodating the noise which exists and not attempting to eliminate or reduce it. A greater emphasis should be directed towards elimination of the source of noise.

Mr. Dugal Purdie, on behalf of the Urban Development Institute (UDI), indicated his support for option A2 as it represents an appropriate compromise. The UDI is strongly opposed to A1 as this would affect proformas upon which construction was predicated upon. Mr. Purdie urged Council to support recommendation A2 with an amendment to exclude the applicability of the guidelines to enclosed space, as the Institute believes the total design of the building should be left with the architects and reviewed through the existing development permit process, without the addition of guidelines.

Mr. Stuart Howard, on behalf of the Architectural Institute of British Columbia (AIBC), lent his support to option A2, as it represents a compromise position. AIBC would ultimately prefer option 5 as stated in its May 30, 1995 brief to Council, but is willing to accept the compromise position. Mr. Howard suggested the Planning Department is naive in its support of option A1 because apartments are now significantly smaller in size and the continued requirement of an open balcony would result in a small, unusable space.

cont'd....

Clause No. 2 (cont'd)

MOVED by Cllr. Kennedy,

THAT the City continue to permit a maximum of eight percent of permitted residential floor area to be excluded from Floor Space Ratio (FSR) for balconies, but to permit no more than half of excluded floor area to be enclosed;

FURTHER THAT the requirement that thresholds be included in enclosed balconies be removed.

- CARRIED

(Councillors Chiavario, Kwan and Price opposed)

MOVED by Cllr. Kennedy,

THAT those District Schedules and CD-1 by-laws containing an acoustic regulation be amended, to delete the acoustic requirement for on-site open space (i.e., balconies, terraces, patios, etc.), generally as outlined in Appendix A of the Policy Report dated June 6, 1995.

- CARRIED

(Councillor Sullivan opposed)

MOVED by Cllr. Kennedy,

THAT the Balcony Enclosure Guidelines and Policies, amended as noted in Appendix B of the Policy Report dated June 6, 1995, to reflect more practical utilization by residents, be approved.

- CARRIED UNANIMOUSLY

MOVED by Cllr. Kennedy,

THAT Council advise the Planning Department that it supports "French Balconies" where appropriate and that language be incorporated in the balcony regulations and/or guidelines that would encourage their provision.

BY-LAW NO. 6582

A By-law to amend the
Zoning and Development By-law,
being By-law No. 3575

THE COUNCIL OF THE CITY OF VANCOUVER, in open meeting assembled, enacts as follows:

1. The "Zoning District Plan" annexed to By-law No. 3575 as schedule "D" is hereby amended according to the plan marginally numbered Z-358(m) and attached to this By-law as Schedule "A", and in accordance with the explanatory legends, notations and references inscribed thereon, so that the boundaries and districts shown on the Zoning District Plan are varied, amended or substituted to the extent shown on Schedule "A" of this By-law, and Schedule "A" of this By-law is hereby incorporated as an integral part of Schedule "D" of By-law No. 3575.

2. The area shown included within the heavy black outline on Schedule "A" is rezoned to CD-1, and the only uses permitted within the said area, subject to such conditions as Council may by resolution prescribe, including design guidelines, and the only uses for which development permits will be issued are:

- Multiple dwelling;
- Accessory uses customarily ancillary to the foregoing.

3. Floor Space Ratio

3.1 The maximum floor space ratio, calculated as if located in the RM-4N District, shall be 1.17, except that the following shall also be excluded from the floor space ratio calculation:

(i) enclosed balconies and other features designed to reduce transit noise, provided the Director of Planning first approves the design of any such feature, and provided further that the total area of all such enclosures and other features does not exceed eight percent of the permitted floor area; and

(ii) the following ancillary amenity facilities for the social and recreational enjoyment of the residents provided that the area of such excluded facilities does not exceed 20 percent of the allowable floor space:

- saunas;
- tennis courts;
- swimming pools;
- squash or raquetball courts;
- gymnasium and workout rooms;
- games and hobby rooms;
- other related indoor uses of a social or recreational nature which in the opinion of the Director of Planning are similar to the above.

3.2 In computing the floor space ratio, site area shall be measured to include any land dedicated for street or lane purposes.

4. Dwelling Unit Density

The maximum dwelling unit density shall be 76.6 units per hectare (31 units per acre).

5. Height

The maximum building height measured above the base surface shall be 15.85 m (52 ft.).

6. Acoustics

All development permit applications shall require evidence in the form of a report prepared by a person trained in acoustics and current techniques of noise measurement demonstrating that the noise levels in those portions of the dwelling units listed below shall not exceed the noise levels set opposite such portions. For the purposes of this section the "noise level" is the A-weighted 24-hour equivalent ((LEQ) sound level expressed in decibels.

<u>Portion of Dwelling Unit</u>	<u>Noise Level</u>
bedrooms	35
living, dining, recreation rooms	40
kitchen, bathrooms, hallways	45
terraces, patios, balconies	60

7. Off-street Parking

7.1 Off-street parking shall be provided, developed and maintained in accordance with the provisions of the Parking By-law, except that a minimum of 1.0 space per unit shall be provided.

7.2 All off-street parking spaces shall be located in the side and rear yards and vehicular access shall be from the lane to be dedicated.

8. This By-law comes into force and takes effect on the date of its passing.

DONE AND PASSED in open Council this 7th day of November , 1989.

CITY OF VANCOUVER

SPECIAL COUNCIL MEETING MINUTES

FEBRUARY 24, 2000

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

PRESENT: Mayor Philip Owen
 Councillor Fred Bass
 Councillor Jennifer Clarke
 Councillor Daniel Lee
 Councillor Don Lee
 Councillor Sandy McCormick
 Councillor Sam Sullivan

ABSENT: Councillor Lynne Kennedy
 Councillor Tim Louis
 Councillor Gordon Price (Sick Leave)
 Councillor George Puil (Civic Business)

CITY CLERK'S OFFICE: Tarja Tuominen, Meeting Coordinator

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.

being By-laws which amended the
Zoning and Development By-law
by rezoning areas to CD-1

THE COUNCIL OF THE CITY OF VANCOUVER, in open meeting
assembled, enacts as follows:

1. By-law No. 3907 is amended in Section 2 by deleting the period from the end of clause (b) and substituting it with a semi-colon and by adding the following clause:

"(c) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

2. By-law No. 4412 is amended in Section 2 by deleting the period from the end of clause (b) and substituting it with a semi-colon and by adding the following clause:

"(c) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, shall be excluded in the computation of floor space ratio, except that this clause shall not apply to walls in existence prior to March 14, 2000."

3. By-law No. 5376 is amended in Section 2 by deleting the period from the end of subclause (iii) and substituting it with a semi-colon and by adding the following subclause:

"(iv) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this subclause shall not apply to walls in existence prior to March 14, 2000."

4. By-laws No. 4825 and 6325 are each amended in Section 3 by deleting the period from the end of subclause (ii) and substituting it with a semi-colon and by adding the following subclause:

"(iii) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, shall be excluded in the computation of floor space ratio, except that this subclause shall not apply to walls in existence prior to March 14, 2000."

5. By-law No. 5343 is amended in Section 3 by deleting the period from the end of clause (iii) and substituting it with a semi-colon and by adding the following clause:

"(iv) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000"

6. By-laws No. 4775, 4829, 5222, 5224, 5773 and 6039 are each amended in Section 3 by deleting the period from the end of clause (b) and substituting it with a semi-colon and by adding the following clause:

"(c) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the

Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, shall be excluded in the computation of floor space ratio, except that this clause shall not apply to walls in existence prior to March 14, 2000."

7. By-laws No. 4085, 5411, and 5416 are each amended in Section 3 by deleting the period from the end of clause (c) and substituting it with a semi-colon and by adding the following clause:

"(d) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

8. By-law No. 5407 is amended in Section 3 by deleting the period from the end of clause (d) and substituting it with a semi-colon and by adding the following clause:

"(e) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

9. The By-laws listed below are each amended in Section 3 by adding the following section:

"3.1 Where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, shall be excluded in the computation of floor space ratio, except that this section shall not apply to walls in existence prior to March 14, 2000."

"(iii) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

11. By-law No. 6272 is amended in Section 3.1 by deleting the word "and" from the end of subclause (c)(i), by deleting the period from the end of subclause (c)(ii) and substituting it with a semi-colon and by adding the following subclause:

"(iii) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

12. By-law No. 4580 is amended in Section 3.2 by deleting the period at the end of the section and substituting it with a semi-colon, by relettering the existing text as clause (a) and by adding the following clause:

"(b) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, shall be excluded in the computation of floor space ratio, except that this clause shall not apply to walls in existence prior to March 14, 2000."

13. By-law No. 6884 is amended in Section 3.1 by deleting the word "and" from the end of clause (a), by deleting the period from the end of clause (b) and substituting it with a semi-colon and by adding the following clause:

"(c) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

14. By-law No. 5683 is amended in Section 3.2 by deleting the period at the end of this section and substituting it with a semi-colon and by adding the following clause:

"(b) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, shall be excluded in the computation of floor

space ratio, except that this clause shall not apply to walls in existence prior to March 14, 2000."

15. By-law No. 8088 is amended in Section 3.2 by adding the following clause:

"(d) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

16. By-law No. 6009 is amended in Section 3.2 by deleting the period at the end of subclause (e)(vii) and substituting it with a semi-colon and by adding the following clause:

"(f) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

17. By-law No. 4677 is amended in Section 3.2 by deleting the period at the end of clause (f) and substituting it with a semi-colon and by adding the following clause:

"(g) where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, except that this clause shall not apply to walls in existence prior to March 14, 2000."

18. The By-laws listed below are each amended in Section 3 by adding the following section:

"3.3 Where exterior walls greater than 152 mm in thickness have been recommended by a Building Envelope Professional as defined in the Building By-law, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness, shall be excluded in the computation of floor space ratio, except that this section shall not apply to walls in existence prior to March 14, 2000."
