6.2 For the purpose of this section, site coverage for buildings is based on the projected area of the outside of the outermost walls of all buildings and includes carports, but excludes steps, eaves, balconies and sundecks.

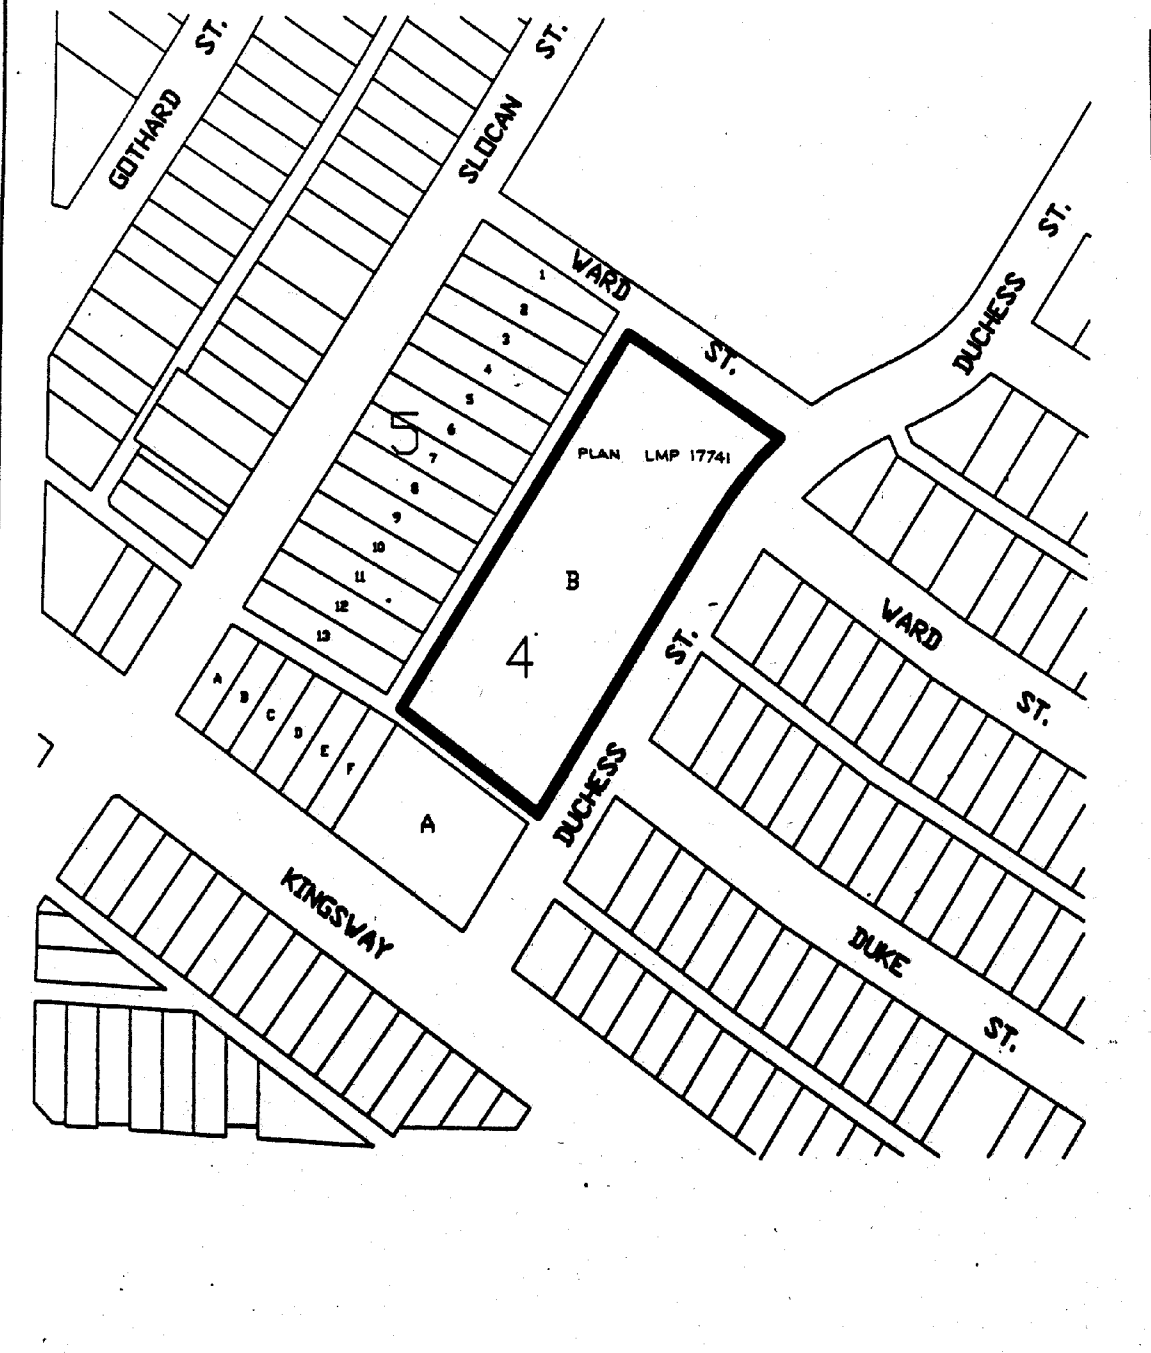

6.3 The maximum site coverage for any portion of the site used for uncovered parking, internal roads and associated vehicular manoeuvring aisles is 21 percent of the site area.

7 Off Street Parking

Off-street parking must be provided on the basis of a minimum of 1.1 space for every dwelling unit and 1 additional space for every 200 m² of gross floor area, except that no more than 2.2 spaces for every dwelling unit need be provided.

An application by W.T. Leung Architects was considered as follows:

REZONING: 4801 DUCHESS STREET (Portion of Block 4, D.L. 52, Plan 917)

Present Zoning: RS-1 One-Family Dwelling District
Proposed Zoning: CD-1 Comprehensive Development District

(i) If approved, the rezoning would permit the use and development of the site generally as follows:

- multiple dwelling;
- accessory uses;
- maximum height of 11.4 m (37.5 ft.);
- maximum floor space ratio of 0.96; and
- Off-street parking.

The Director of Planning recommended approval, subject to the following conditions proposed for adoption by resolution of Council:

- (a) That the proposed form of development be approved by Council in principle, generally as prepared by Wing Ting Leung Architects Ltd. on revised plans received September 21, 1993, provided that the Director of Planning may allow minor alterations to this form of development when approving a detailed scheme of development as outlined in (b) below.
- (b) That, prior to approval by Council of the form of development, the applicant shall obtain approval of a development application by the Director of Planning, who shall have particular regard to the following:
 - (i) further design development to explore the possibilities of increasing the amount of usable open space for residents on the site, in consultation with Engineering and Fire Dept. staff;
 - (ii) a landscape plan which maximizes open space use, sunlight access, and livability for all residents on the site, and which provides front yard landscaping on Duchess and Ward Streets that extends the existing boulevard character of Duchess Street north of Ward Street; and

Clause No. 4 continued

(iii) provision of adequate parking access widths and manoeuvring aisles, and provision of adequate parking access width at the lane to allow two-way traffic flow.

(c) That, prior to enactment of the CD-1 By-law, the registered property owner shall make arrangements to the satisfaction of the City Engineer and Director of Legal Services to provide the following at no cost to the City:

(i) registration at the Land Titles Office of the subdivision which separates the site from the C-2 portion adjacent Kingsway;

(ii) 6.1 m (20 ft.) lane dedication from Duchess Street to the lane west to continue the existing lane running east-west, parallel to and north of Kingsway, plus a 1.5 m by 1.5 m corner cut at the intersection of the new lane with the north-south lane;

(iii) 5.9 m (19.5 ft.) dedication along the south side of Ward Street from Duchess Street to the lane west (the north side of the subject site);

(e) That, if approved at Public Hearing, the CD-1 By-law be accompanied at the time of enactment by an amendment to the Subdivision By-law to delete the RS-1 portion of Block 4 from the maps forming part of Table 1 of Schedule A.

Clause No. 4 continued

There was no correspondence received on this matter.

Mr. Phil Mondor, Planner, advised the Director of Planning supports this application because it offers a number of public benefits. These include:

- ◆ The proposed residential use is more compatible with the surrounding neighbourhood than the current trailer court use on this site. This is the last remaining trailer court in the City, and trailer uses are no longer permitted in the zoning by-law;
- ◆ The development proposes 44 town homes, which is more than the 13 presently allowed on the site. This application provides additional and a variety of housing;
- ◆ Additional high-density housing is proposed on a site near major arterials, Kingsway and Slocan Street, which are served by public transit and in close proximity to the Skytrain;
- ◆ The site enjoys proximity to commercial services on Kingsway, is near to a school which has capacity for additional school children, and is close to Slocan Park;
- ◆ The provision of higher density housing at this location works to achieve the City's objective of reducing atmospheric pollution;
- ◆ Consistent with Council policies, the site is designed for family housing and the developer intends to produce affordable housing. Mr. Mondor referred to a memo from the Deputy Director of Planning dated March 4, 1994, which described the applicant's vision of affordable housing.

Mr. Mondor recommended the following motion be adopted by resolution of Council to correct an ambiguity in the by-law:

THAT the CD-1 by-law be amended in Section 3.1 by deleting the following: ", being the estimated site size at the time of application for rezoning".

Clause No. 4 continued

Mr. Wayne Leung, applicant, advised this project has involved a consultative process with the Planning Department and neighbourhood. As a result the project has received support from the Planning Department, the Urban Design Panel, and a significant portion of the neighbourhood.

The applicant proposes to build 44 units of family townhomes with two bedrooms and den, and three bedrooms and den. The development is attractive and will fit well in the neighbourhood context in terms of form, height, massing, architectural expression, materials used, and landscaping. In addition, the applicant has managed to achieve approximately 45% of the net site area after site dedication as areas for usable open green space. Mr. Leung described for Council the public benefits evolving from this project.

Mayor Owen called for speakers for or against the application and the following delegations were heard:

Mr. Joe Apolonia, representing the homeowners of 4800 Block Slocan (brief on file), spoke in favour of the application before Council, and also formally requested Council to instruct the Director of Planning to review parcels of land in the 4800 Block Slocan Street, with a view to rezoning to a higher density residential development.

Ms. Isabelle Tompkins, 4700 Duchess Street, requested Council approve the application as it would improve an eyesore in the neighbourhood; encourage permanent neighbours on this site; and result in street improvements in the neighbourhood.

Ms. Laura Thaw, 2700 Block Horley Street, urged Council to support this application.

MOVED by Cllr. Price,

THAT the application be approved, subject to the conditions as set out in this minute of the Public Hearing, and subject to the amendment to Section 3.1 as proposed by the Director of Planning.

SPECIAL COUNCIL MEETING MINUTES

FEBRUARY 24, 2000

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

PRESENT: Mayor Philip Owen
 Councillor Fred Bass
 Councillor Jennifer Clarke
 Councillor Daniel Lee
 Councillor Don Lee
 Councillor Sandy McCormick
 Councillor Sam Sullivan

ABSENT: Councillor Lynne Kennedy
 Councillor Tim Louis
 Councillor Gordon Price (Sick Leave)
 Councillor George Puil (Civic Business)

CITY CLERK'S OFFICE: Tarja Tuominen, Meeting Coordinator

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.
