1. REZONING: 4470 West 8th Avenue (Sasamat Gardens)

Summary: The proposed rezoning from RS-1 to CD-1 would permit the development of up to 48 residential units in two-family and multiple dwellings, each containing a maximum of three dwelling units, with underground parking.

Applicant: Home Investments Ltd.

Recommended Approval: By the Director of Central Area Planning on behalf of Land Use and Development, subject to the following conditions as proposed for adoption by resolution of Council:

(a) THAT the proposed form of development be approved by Council in principle, generally as prepared by Roger Hughes + Partners, Architects, and stamped "Received City Planning Department, October 13, 1998", provided that the Director of Planning may allow minor alterations to this form of development when approving the detailed scheme of development as outlined in (b) below.

(b) THAT, prior to approval by Council of the form of development, the applicant shall obtain approval of a development application by the Director of Planning, who shall have particular regard to the following:

(i) deletion of the lane connection to 8th Avenue;

(ii) provision of vehicular access along an east-west alignment from Sasamat Street either:

- (1) connecting to the existing lane with a 6 m (20 ft.) jog immediately east of an underground access point, to deter exiting eastward; or
 - (2) stopping at approximately the point of an underground entry from Sasamat Street and, if desired, with a secondary underground entry from the existing lane a minimum of 10 m from the east property line and serving no more than 10 parking spaces;
- (iii) relocation of garbage collection facilities away from adjacent houses to points on the east-west lane alignment closer to Sasamat Street than to the east end of the site;
- (iv) reduction in height of the two mid-block buildings along Sasamat to a maximum of 7.6 m (25 ft.) and no more than 1.5 storeys facing Sasamat Street;
- (v) increased variety in building massing, including roof forms and building composition along West 8th and 9th Avenues, to achieve better integration with the surrounding 'grain' of development;
- (vi) provision of a view analysis to demonstrate that there will be no increased view impact from building elements greater than 9.2 m (30 ft.) in height;
- (vii) reduce size of 4-unit Multiple Dwellings to a maximum of 3-units, with a maximum floor area of 5,000 sq. ft. in each Multiple Dwelling;
- (viii) design development of the two family dwelling on West 9th Avenue adjacent to existing single family dwelling to emphasize its single family scale and character, and a maximum height of 2 storeys;
- (ix) reconfiguration of proposed interior 4-unit Multiple Dwelling on lane alignment as 2 Two-family Dwellings, having front doors oriented towards the Avenues to provide direct street access and minimize overlook toward homes east of the site, with 2-storey maximum height; a minimum 10 m (33 ft.) setback from the east property line; and a comfortable separation between the structures along the lane alignment, or a further 5 m setback of the second structure from the east property line;
- (x) design development to take into consideration the principles of CPTED (Crime Prevention Through Environmental Design), having particular regard for;
- break and enter by reducing the permeability for cutting through private areas of the site. The semi-private open space can remain visible with the use of low open fencing and gating;
 - theft in the underground by securing parking areas and by ensuring perimeter exit stairs minimize exposure to the streets. Parking garage walls ceiling and utility pipes to be painted white;
- (xi) design development to reduce opportunities for graffiti (Note: Opportunities for graffiti can be mitigated by reducing areas of exposed wall, covering these walls with vines, hedges or latticework or by using protective covering material);

(xii) to achieve early maturing landscaping, plant materials other than ground covers should conform to the following minimum sizes:

coniferous trees: 4 m minimum height
deciduous trees: 8 cm minimum caliper
shrubs: 3 to 5 gallon sizes

(xiii) at least two elevators must be shown in locations convenient to units suitable to seniors;

(xiv) design development to the 8 units proposed as available for seniors housing to make access (exterior and interior) and livability suitable for elderly people;

(Washroom size and layout is particularly important, and should allow manoeuvring space for a person using a walker and/or a home support worker to safely assist the person bathing.)

(c) THAT, prior to enactment of the CD-1 By-law, the registered owner shall:

(i) make arrangements to the satisfaction of the General Manager of Engineering Services and Director of Legal Services for the following:

1. Dedication of the south 33 ft. of the site for road and construction thereof;
2. Dedication and construction of a 6.1 m (20 ft.) east-west lane aligned to include an offset, designed to the satisfaction of the Manager of Engineering Services and the Director of Planning, to deflect traffic from the east end of the lane;

OR

Provision of a legal agreement to the satisfaction of the Manager of Engineering Services and the Director of Legal Services securing access for garbage collection and recycling vehicles and pedestrians through a statutory right of way providing for public utilities and generally aligned with the existing east-west lane alignment adjacent to the site.

OR

only if 8th Avenue lane access is approved:

Dedicate a 30 ft. x 125 ft. portion of the site for lane; and

Dedicate a 10 ft. x 10 ft. corner cut off from the adjacent Lot 1 for lane;

3. Upgrading of the City water system to serve this development;
4. A maintenance agreement for the landscaping shown on the

eastside of the proposed lane, if the 8th Avenue alignment and lane dedication requirement is approved;

5. Curb, gutter and pavement to centre line on north side of 9th Avenue and east side of Sasamat Street adjacent the site. (South side of 8th Avenue was deleted);

6. Sidewalk on the south side of 8th Avenue and the north side of 9th Avenue, adjacent the site;

7. Replacement of the existing non-standard sidewalk with a standard 5 foot-wide sidewalk on the east side of Sasamat adjacent the site;

8. Street lighting on the north side of 9th Avenue adjacent the site;

9. Street trees adjacent the site where space permits; and

10. Undergrounding of all telephone and hydro services from the closest existing suitable service point.

(ii) Execute a legal agreement satisfactory to the Director of Legal Services providing that owners will not discriminate against families with children in the sale of their property.

CITY OF VANCOUVER

SPECIAL COUNCIL MEETING MINUTES

FEBRUARY 24, 2000

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

PRESENT: Mayor Philip Owen
 Councillor Fred Bass
 Councillor Jennifer Clarke
 Councillor Daniel Lee
 Councillor Don Lee
 Councillor Sandy McCormick
 Councillor Sam Sullivan

ABSENT: Councillor Lynne Kennedy
 Councillor Tim Louis
 Councillor Gordon Price (Sick Leave)
 Councillor George Puil (Civic Business)

CITY CLERK'S OFFICE: Tarja Tuominen, Meeting Coordinator

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.

ADMINISTRATIVE REPORT

Date: July 10, 2001
Author/Local: J. Baxter/6656
RTS No. 02196
CC File No. 2605
Council: July 31, 2001

TO: Vancouver City Council
FROM: Director of Current Planning
SUBJECT: Form of Development: 4498 West 8th Avenue

RECOMMENDATION

THAT the form of development for the CD-1 zoned site known as 4470 West 8th Avenue (4498 West 8th Avenue being the application address) be approved generally as illustrated in the Development Application Number DE405433, prepared by Roger Hughes & Partners Architects and stamped "Received, City Planning Department May 9, 2001", provided that the Director of Planning may approve design changes which would not adversely affect either the development character of this site or adjacent properties.

GENERAL MANAGER'S COMMENTS

The General Manager of Community Services RECOMMENDS approval of the foregoing.

COUNCIL POLICY

There is no applicable Council policy except that Council did approve in principle the form of development for this site when the rezoning was approved, following a Public Hearing.

PURPOSE

In accordance with Charter requirements, this report seeks Council's approval for the form of development for the above-noted CD-1 zoned site.

BACKGROUND AND SITE DESCRIPTION

At a Public Hearing on June 21, 1999, City Council approved a rezoning of this site from RS-1 (One-Family Dwelling District) to CD-1 (Comprehensive Development District). Council also approved in principle the form of development for these lands. CD-1 By-law Number 8082 was enacted on October 5, 1999.

The site is located between West 8th and 9th Avenues on Sasamat Street, in the West Point Grey community. It is a large singular lot, nearly a half block in size, and vacant since 1943. The site and surrounding zoning are shown on the attached Appendix 'A'.

Subsequent to Council's approval of the CD-1 rezoning, the Development Permit Board approved Development Application Number DE405433. This approval was subject to various conditions, including Council's approval of the form of development. The latter condition is one of the few outstanding prior to permit issuance.

DISCUSSION

The proposal involves the construction of 10 two-family dwelling buildings and 7 multiple dwelling buildings containing three dwelling units each, for a total of 41 dwelling units, over one level of underground parking (87 spaces), with vehicular access from Sasamat Street.

The conditions of rezoning included design development to the proposed interior 3-unit multiple dwelling at the east end of the site to reconfigure as two buildings. Following consultation with immediately affected neighbours, it was concluded by the Development Permit Board that benefits to the adjacent neighbours, as well as to the proposed development, could be achieved with a single interior 3-unit multiple dwelling, with additional setbacks and refinements to the roof form to respect privacy of neighbours and to provide an increase in open space, as submitted.

The proposed development has been assessed against the CD-1 By-law and responds to the stated objectives.

Simplified plans, including a site plan and elevations of the proposal, have been included in Appendix 'B'.

CONCLUSION

The Development Permit Board has approved Development Application Number DE405433, subject to various conditions to be met prior to the issuance of the development permit. One of these conditions is that the form of development first be approved by Council.

4. Form of Development: 4498 West 8th Avenue**July 10, 2001 (File 2605)**

Also before Council was a letter, dated July 28, 2001, from Robert Brewster, requesting to speak to this matter. Mr. Brewster raised concerns about some of the central units not being one and a half stories, and the underground parking appearing to be seven to nine feet above ground level.

Larry Beasley, Director of Current Planning, addressed the concerns raised in Mr. Brewster's letter and advised staff had continued meeting with the community following the Public Hearing held on the application. Mr. Beasley also advised the community had attended a Development Permit Board hearing, requested changes, and attended the final Development Permit Board hearing, at which the development application was approved.

MOVED by Councillor Clarke

THAT the form of development for the CD-1 zoned site known as 4470 West 8th Avenue (4498 West 8th Avenue being the application address) be approved generally as illustrated in the Development Application Number DE405433, prepared by Roger Hughes & Partners Architects and stamped "Received, City Planning Department May 9, 2001", provided that the Director of Planning may approve design changes which would not adversely affect either the development character of this site or adjacent properties.
