2.1 The description of the area shown within the heavy black outline on Schedule A is CD-1 (687).

2.2 Subject to Council approval of the form of development, to all conditions, guidelines and policies adopted by Council, and to the conditions set out in this By-law or in a development permit, the only uses permitted within CD-1 (687), and the only uses for which the Director of Planning or Development Permit Board will issue development permits are:

4 Floor area and density

4.1 Computation of floor space ratio must assume that the site consists of 1,766 m², being the site size at the time of the application for the rezoning evidenced by this By-law, and before any dedications.

4.2 The floor space ratio for all uses must not exceed 1.48.

4.3 Computation of floor area must include all floors, including earthen floor, above and below ground level, having a minimum ceiling height of 1.2 m, measured to the extreme outer limits of the building.

4.4 Computation of floor area must exclude:

- (a) open residential balconies or sundecks or any other appurtenances which, in the opinion of the Director of Planning, are similar to the foregoing, except that:

- (b) patios and roof gardens, provided that the Director of Planning first approves the design of sunroofs and walls;
- (c) where floors are used for off-street parking and loading, the taking on or discharging of passengers, bicycle storage, heating and mechanical equipment, or uses, which in the opinion of the Director of Planning are similar to the foregoing, those floors or portions thereof so used, which are at or below base surface, except that the minimum exclusion for a parking space must not exceed 7.3 m in length;
- (d) all residential storage area below base surface;

5 Building height

Building height, measured from base surface, must not exceed 12.2 m.

6 Horizontal angle of daylight

6.1 Each habitable room must have at least one window on an exterior wall of a building.

6.2 The location of each such exterior window must allow a plane or planes extending from the window and formed by an angle of 50 degrees, or two angles with a sum of 70 degrees, to encounter no obstruction over a distance of 24.0 m.

6.3 Measurement of the plane or planes referred to in section 6.2 must be horizontally from the centre of the bottom of each window.

6.4 The Director of Planning or Development Permit Board may relax the horizontal angle of daylight requirement, if:
