[14077; 2024 06 25]
- 3.2 The floor space ratio for all permitted uses must not exceed 1.0.
- 3.3 Computation of floor space ratio must include:
 - (a) all floors, including earthen floor, measured to the extreme outer limits of the building;
 - (b) stairways, fire escapes, elevator shafts, and other features which the Director of Planning considers similar, measured by their gross cross-sectional areas and included in the measurements for each floor at which they are located; and

3.4 Computation of floor space ratio must exclude:

- (a) open residential balconies or sundecks and any other appurtenances which, in the opinion of the Director of Planning, are similar to the foregoing, except that the total area of all exclusions must not exceed 8% of the permitted residential floor area;

- (g) where a Building Envelope Professional as defined in the Building By-law has recommended exterior walls greater than 152 mm in thickness, the area of the walls exceeding 152 mm, but to a maximum exclusion of 152 mm thickness.

Building Height

- 4.1 The building height for each one-family dwelling must not exceed 9.2 m or 2 ½ storeys measured from base surface.

6. Any development or use of the site requires the provision and maintenance, in accordance with the requirements of, and relaxations and exemptions in, the Parking By-law, of off-street parking spaces and bicycle spaces, all as defined under the Parking By-law, except that there must be at least one parking space for each dwelling unit.

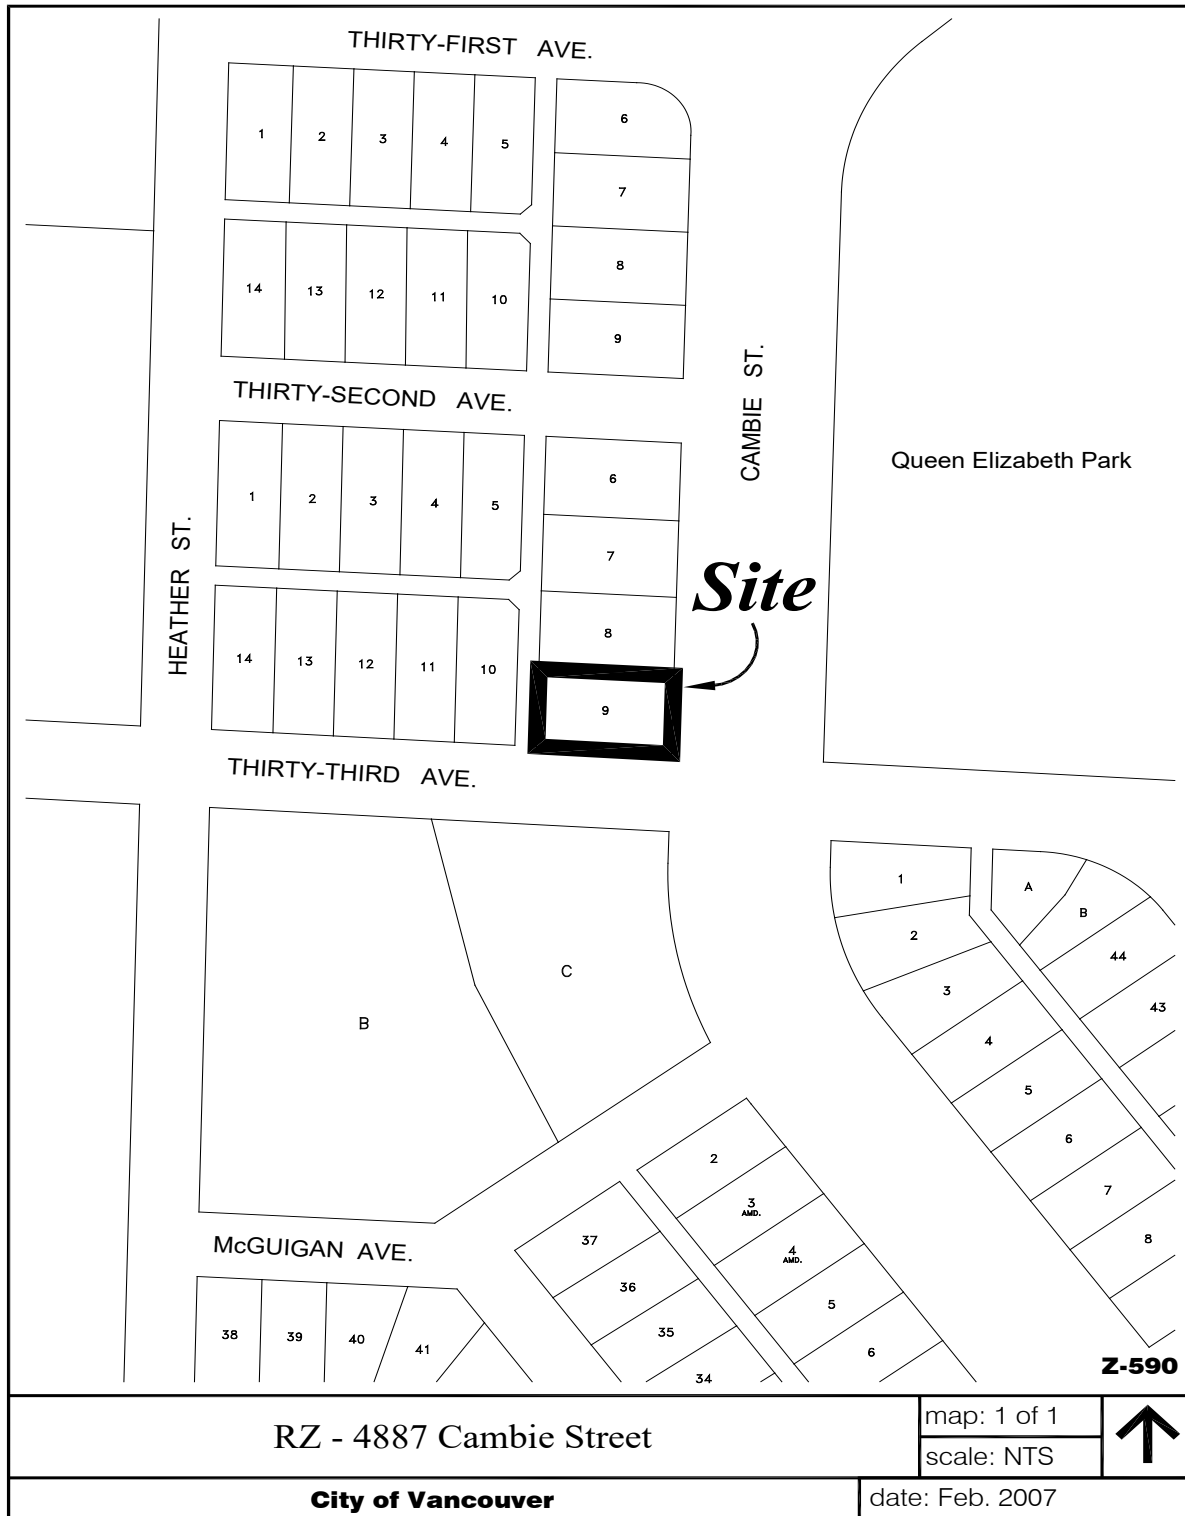

Acoustics

7. All development permit applications require evidence in the form of a report and recommendations prepared by a person trained in acoustics and current techniques of noise measurement, demonstrating that the noise levels in those portions of the dwelling units listed below do not exceed the noise level set opposite such portions. For the purposes of this section, the noise level is the A-weighted 24-hour equivalent (Leq) sound level and is defined simply as noise level in decibels.

Portions of dwelling units	Noise levels (Decibels)
bedrooms	35
living, dining, recreation rooms	40
kitchen, bathrooms, hallways	45

Severability

8. A decision by a court that any part of this By-law is illegal, void, or unenforceable severs that part from this By-law, and is not to affect the balance of this By-law.
9. *[Section 9 is not reprinted here. It contains a standard clause including the Mayor and City Clerk's signature to pass the by-law and certify the by-law number and date of enactment.]*

Public Hearing – March 13, 2007 – Item 3 - [Agenda](#)

Summary – To rezone the site from RS-1 (single family residential) to CD-1 (Comprehensive Development) to permit a three-unit freehold tenure rowhouse development, each parcel to include an additional secondary dwelling unit located on top of the garage at the rear.

By-law enacted on February 12, 2008 – By-law No. [9496](#)

Public Hearing – June 13, 2024 – Item 4 – [Agenda](#)

Summary – To amend the Zoning and Development By-law to allow multiple dwelling housing options (multiplex) in the RT-7 and RT-9 zones. These amendments are necessary to comply with Bill 44 – Provincial Small-Scale Multi-Unit Housing (SSMUH) Legislation and would not require a public hearing if this was the extent of the proposed amendments because the amendments would be for the sole purpose of complying with section 565.03 of the Vancouver Charter.
