3. Text Amendment: 2740 West King Edward Avenue

An application by Mr. Lloyd Plishka was considered as follows:

TEXT AMENDMENT: 2740 WEST KING EDWARD AVENUE (Lot A, Block J, D.L. 2027, Plan 5702)

- addition of 29 market rental units for seniors;
- accessory uses customarily ancillary to the above uses;
- maximum floor space ratio of 0.80;
- maximum height of 11.6 m (38 ft.);
- acoustic provisions; and
- provisions regarding off-street parking.

(ii) Any consequential amendments.

The Director of Planning recommended approval, subject to the following conditions proposed for adoption by resolution of Council:

(a) THAT, the proposed form of development be approved by Council in principle, generally as prepared by Lloyd Plishka and stamped "Received City Planning Department, January 10, 1992", provided that the Director of Planning may allow minor alterations to this form of development when approving the detailed scheme of development in compliance with the amended CD-1 By-law and, as outlined in (b) below.

(b) THAT, prior to approval by Council of the form of development, the applicant shall obtain approval of a development application by the Director of Planning, who shall have particular regard to the following:

(i) further design development to provide:

- livability, sunlight access, privacy, and security for below grade dwelling units;
- increased indoor-outdoor open space by means of balconies, decks, porches, and roof gardens, but ensuring adequate sunlight access, particularly for north-facing balconies which should not be recessed;
- articulation and treatment of building mass and architectural expression to complement surrounding low-density residential development;

Clause No. 3 cont'd

- adequate enclosed common area for social and recreational activity to serve all dwelling units and buildings on the site, including a full kitchen, to be located adjacent to outdoor common open space and to have adequate access from all buildings; and
  - adequate provision for and access to shared laundry facilities if these are not provided ensuite.
- (ii) a landscape plan to increase the provision of useable open space, variety of outdoor activities, livability, sunlight access, and ease of pedestrian circulation;
- (iii) results of a survey of tenants in Parkdale Manor, undertaken by the applicant, to determine the number of bachelor units which shall be redesigned as one-bedroom units;
- (iv) a plan for minimizing disruption to tenants during the phased demolition and redevelopment of five existing buildings; and
- (v) designation of visitor parking and parking for disabled persons.
- (c) THAT, prior to enactment of the CD-1 amending By-law, the registered property owner shall, at no cost to the City:
- (i) make suitable arrangements, to the satisfaction of the City Engineer, for the undergrounding of all electrical and telephone services within and adjacent to the site from the closest existing suitable service point;
  - (ii) make suitable arrangements, to the satisfaction of the Fire Chief, for the sprinklering of, and provision of 2 m (6.6 ft.) access to, the three retained buildings near the lane (shown as C1, C2, and MH on site plan), and for providing separate addresses for individual buildings (all buildings to be addressed to Trafalgar Street except for building D and sections G and H of the new building, which should be addressed to West King Edward Avenue); and

Clause No. 3 cont'd

(iii) provide an undertaking, to the satisfaction of the Director of Planning, that the Calling Foundation shall convene a meeting in each calendar year for the purpose of organizing a residents' council at Parkdale Manor.

The agenda contained the following summary of the proposed changes.

	Current Status	Proposed Amendments (if approved)
Zone	CD-1	CD-1
Permitted Uses	not specified	◦ Multiple dwellings; ◦ accessory uses
Maximum FSR	not specified	0.80
Maximum Height	not specified	11.6 m (38 ft.)

Also circulated was a report dated July 3, 1992 from the Special Advisory Committee on Seniors recommending:

THAT the additional condition of approval for the rezoning of 2740 West King Edward Avenue, as contained in the Council motion of June 23, 1992, be amended and approved as follows:

THAT prior to enactment of the by-law to amend CD-1 By-law No. 4049, the Calling Foundation shall assist the residents to establish an ongoing residents' council at Parkdale Manor.

Underlining denotes amendment

The City Manager submitted the Committee's recommendation for consideration.

Mr. P. Mondor, Planner, Land Use & Development Division, reviewed the application noting a typographical error in the draft CD-1 By-law circulated with the agenda. The figure appearing in Section 6, Site Coverage, s.s. 6.1, should be 35 percent of the site area, not 30 percent of the site area.

Clause No. 3 cont'd

Mr. Lloyd Plishka, architect for the project, advised he was proud to present a proposal that would provide badly needed affordable housing on the City's West Side. The proposal now presented incorporated community input received at a neighbourhood open house.

The Mayor called for speakers for or against the application and the following addressed the Public Hearing:

Diane McCurdy, 4500 Puget Drive, advised the project would impact her view and decrease the amount of open space. She also had concerns about increased density and height but would have no objection if the building observed the existing height of the Parkdale Manor complex. Ms. McCurdy stated she had received no notification of the Public Hearing.

Responding to questions, Mr. Mondor stated the 2-block radius official notification area extended up the hill above Puget Drive. The increase in height would be from 2½ storeys to 3 storeys. View impact from the 4500 Block Puget would be minimal.

Doreen Godwin, 4600 Block Puget Drive, also advised she was not notified of the Public Hearing. She felt it would have been better for the redevelopment to have been at the rear of the complex rather than at the front.

David Godwin expressed concern respecting soil erosion and densification destroying quality of life. The height of the development would impact the views of houses on Puget Drive.

Mr. Plishka advised notification was hand delivered to all houses around the site up to the lane. He noted the low point of the site is at Trafalgar/King Edward and there would not be any significant view obstruction.

MOVED by Cllr. Owen,

THAT the application, incorporating the correction to the draft CD-1 By-law proposed by the Director of Planning, be approved subject to the conditions set out in this Minute of the Public Hearing.

2. Balcony Enclosures and Acoustic Requirements

An application by the Director of Land Use and Development was considered as follows:

The proposed amendments to various zoning District Schedules, Official Development Plans and CD-1 Comprehensive Development District By-laws, would either:

- not allow any of the permitted residential floor area to be excluded from Floor Space Ratio (FSR) for enclosed balconies except in buildings existing prior to April 23, 1985 in which case the present regulations would apply; or

cont'd....

Clause No. 2 (cont'd)

- continue to permit a maximum of 8 percent of permitted residential floor area to be excluded form Floor Space Ratio (FSR) for balconies BUT to permit no more than half of excluded floor area to be enclosed; or
- permit no more than 8 percent of permitted residential floor area to be excluded from Floor Space Ratio (FSR) for enclosed balconies.

The proposed acoustic amendments would delete the acoustic requirement for balconies, terraces, patios, etc.

Amended Balcony Enclosure Guidelines and Policies are also proposed.

The Director of Land Use and Development recommended approval of this application.

Staff Opening Comments

Mr. Ralph Segal, Planner, provided background on this issue and introduced the options before Council this evening.

In 1964, in order to improve livability in higher density multiple dwelling developments, open balconies were excluded from FSR to a maximum of eight percent of residential floor area. In the early 1980s, the City received numerous requests from owners of units in existing buildings to enclose their balconies for reasons of poor insulation and acoustics, air drafts and other interior problems. In response, Council in 1985 adopted balcony enclosure guidelines by which enclosed balconies would continue to be excluded from FSR.

Subsequently, in response to the development industry's request for equity, Council permitted this exclusion to apply to new construction, subject to adherence to the guidelines. Since then, new buildings have, to an increasing degree, incorporated enclosed balconies as additional interior space displacing the private open space, the open balconies, for which the FSR exclusion had been originally provided.

Since enclosed balcony space has been successfully marketed at the full per square foot price of the rest of the dwelling unit, many developers have been more and more aggressive in seeking the full eight percent exclusion for enclosed balconies. This differs from a mix of open and enclosed balconies that were anticipated when the exclusion was first put in place.

Clause No. 2 (cont'd)

With the aid of photographs distributed to Council (on file in the City Clerk's Office), Mr. Segal explained that enclosure of most or all balconies bulks up buildings by filling in the volumes of open balconies and intends to create less residential, more office-like buildings. Exclusions from FSR are usually given to encourage developers to provide facilities that are considered important for livability but would likely not be provided without that incentive. In this case, bonuses are being permitted when they the negative affect of displacing the private open space for which the FSR exclusion was intended.

Recommendation A1 would eliminate the FSR exclusion for enclosed balconies except in the buildings existing prior to 1985, as per the original intent of the balcony enclosure provisions. Alternatively, should Council consider that enclosed balconies do have merit, A2 is offered which states that no more than half of the excluded balcony area may be enclosed. The third option, A3 is to simply allow outright the full eight percent exclusion to be enclosed.

This application also proposes an acoustic amendment. At present, acoustic requirements in many district schedules and CD-1 by-laws apply to standards in both rooms within the unit as well as exterior balconies and patios. As the current standard often requires balconies to be enclosed, even when this is not desired, the proposed amendment will delete this requirement. Mr. Segal also explained that amendments are proposed to the balcony enclosure guidelines which would delete provisions calling for easy conversion of enclosed balconies back to open balconies, as well as adding several additional clauses which will clarify the design intent in new construction.

Responding to a question from a member of Council, Mr. Segal advised of an error in the memorandum dated July 18, 1995 from the City Clerk, which referred this matter to Public Hearing. Recommendation A1 makes reference to excluding floor space ratio for enclosed balconies except in buildings existing prior to April 23, 1995. This should read April 23, 1985.

A member of Council enquired whether these guidelines would permit a style of balcony sometimes referred to a french balconies. Mr. Segal advised this style would not be permitted under the proposed guidelines.

Council members also enquired whether thresholds will still be required between the interior unit and the closed balconies. It was confirmed the proposed guidelines still contain this threshold requirement.

Correspondence

All correspondence received prior to this matter being referred to Public Hearing was included as Appendix E in the Council report. One additional letter stressing the need for more open balconies in Vancouver and another favouring option A2, were also received.

Speakers

The Mayor called for speakers for and against the application, and the following addressed Council.

Mr. Hans Schmidt, representing the Society of Soundscape Preservation, expressed concern with the proposed deletion of acoustic requirements, on the grounds that if these requirements are deleted, the City is simply accommodating the noise which exists and not attempting to eliminate or reduce it. A greater emphasis should be directed towards elimination of the source of noise.

Mr. Dugal Purdie, on behalf of the Urban Development Institute (UDI), indicated his support for option A2 as it represents an appropriate compromise. The UDI is strongly opposed to A1 as this would affect proformas upon which construction was predicated upon. Mr. Purdie urged Council to support recommendation A2 with an amendment to exclude the applicability of the guidelines to enclosed space, as the Institute believes the total design of the building should be left with the architects and reviewed through the existing development permit process, without the addition of guidelines.

Mr. Stuart Howard, on behalf of the Architectural Institute of British Columbia (AIBC), lent his support to option A2, as it represents a compromise position. AIBC would ultimately prefer option 5 as stated in its May 30, 1995 brief to Council, but is willing to accept the compromise position. Mr. Howard suggested the Planning Department is naive in its support of option A1 because apartments are now significantly smaller in size and the continued requirement of an open balcony would result in a small, unusable space.

"I hereby certify that the foregoing is a correct copy of a By-law passed by the Council of the City of Vancouver on the 11th day of January 1996, and numbered 7515.

CITY CLERK"

**CITY OF VANCOUVER**

**SPECIAL COUNCIL MEETING MINUTES**

**FEBRUARY 24, 2000**

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

**PRESENT:** Mayor Philip Owen  
 Councillor Fred Bass  
 Councillor Jennifer Clarke  
 Councillor Daniel Lee  
 Councillor Don Lee  
 Councillor Sandy McCormick  
 Councillor Sam Sullivan

**ABSENT:** Councillor Lynne Kennedy  
 Councillor Tim Louis  
 Councillor Gordon Price (Sick Leave)  
 Councillor George Puil (Civic Business)

**CITY CLERK'S OFFICE:** Tarja Tuominen, Meeting Coordinator

**COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,  
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

**1. Text Amendments: District Schedules, Official Development Plans and**

**CD-1 By-laws - Floor Space Exclusions**

### [Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

### Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

### Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

### Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute  
Bill McEwen, Masonry Institute of British Columbia (brief filed)  
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC  
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

### **Staff Closing Comments**

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

*RS-1 and RS-1S RT-4, etc.*

*(Italics denote amendment)*

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

**RISE FROM COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

**ADOPT REPORT OF COMMITTEE OF THE WHOLE**

MOVED by Cllr. Clarke,  
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.
