A Special Meeting of the Council of the City of Vancouver was held on Thursday, January 22, 1981, at approximately 7:30 p.m., in the Council Chamber, third floor, City Hall, for the purpose of holding a Public Hearing to amend the Zoning & Development By-law.

PRESENT: Alderman Rankin (Chairman)
Aldermen Bellamy, Boyce, Brown, Divinsky,
Eriksen, Ford and Puil

ABSENT: Mayor Harcourt
Alderman Kennedy
Alderman Yorke

CLERK TO THE COUNCIL: Mrs. J. Thomas

COMMITTEE OF THE WHOLE

MOVED by Ald. Bellamy,
SECONDED by Ald. Brown,

THAT this Council resolved itself into Committee of the Whole, Alderman Rankin in the Chair, to consider proposed amendments to the Zoning & Development By-law.

- CARRIED UNANIMOUSLY

To aid the public present for the Hearing, the Clerk read from the agenda that Council had before it.

1. Proposed Rezoning:
1176 West 15th Avenue

The Council considered a rezoning application from Mr. N.J. Pelman, Architect on behalf of Mr. A. Cranfield, the applicant, as follows:

LOCATION: 1176 WEST 15TH AVENUE
Lot 7, Block 474, D.L. 526, Plan 3015.

Present Zone: RT-2 Two-Family Dwelling District
Requested Zone: CD-1 Comprehensive Development District

(a) The proposed CD-1 By-law, if approved, would restrict the use of this site as follows:

- three attached dwelling units, with two dwelling units having principal access at or near and the third dwelling unit situated above, and accessory buildings and uses customarily ancillary to these dwelling units.

The above uses would be regulated as follows:

- floor space ratio not to exceed 0.770;
- height not to exceed three storeys nor 31 feet;
- provision of six off-street parking spaces.

The development of this site shall also be subject to such conditions, including the following, as Council may by resolution prescribe:

- (i) That the detailed scheme of development in a Development Permit Application be first approved by the Director of Planning following advice from the Urban Design Panel, having due regard to the overall design and its relationship to adjacent development; finishing materials and colours; provision and maintenance of landscaping and useable open space; vehicular ingress and egress and the configuration and location of off-street parking spaces including the design of any carports or similar structures; and garbage collection facilities.

Proposed Rezoning:
1176 West 15th Avenue (cont'd)

- (ii) That the form of development is not to be materially different from the plans prepared by Mr. N. Pelman, stamped "Received, City Planning Department, July 11, 1980".
 - (iii) Should the above conditions not be complied with by the owner within 160 days from the date of the Public Hearing, then any approval granted at the Public Hearing shall be subject to revocation by Council.
 - (iv) That this site be brought to the attention of the Planning and Development Committee of Council if development has not been started within two years from the date of enactment of the CD-1 By-law.
(For specific details on the proposed CD-1 District please refer to the draft By-law attached).
- (b) Any consequential amendments.
 - (c) Amend the Sign By-law No. 4810 to establish sign regulations for the newly established CD-1 By-law.

The Director of Planning recommended that the application be refused.

The Chairman called for speakers for or against the proposal and the following addressed Council:

Mr. A. Cranfield, developer, advised he had visited all the property owners in the 1100 Block West 15th Avenue explaining details of the proposed building with drawings and a model of the proposal. With one exception, his neighbours indicated support for the rezoning.

Mr. Pelman, Architect, submitted the block in question was unique in that all the homes were extra large and overheight. The proposed building would be compatible with the existing residences and for this purpose had been designed with an allegiance to historic detail. At the City's suggestion the project had been cut back from four units to three units. Mr. Pelman showed a number of slides illustrating the character of the immediate area and design details of the proposed building.

Ms. Mary Rawson, 1116 West 15th Avenue, noted there was multiple occupancy of most of the existing houses in the block and the present zoning did not reflect the reality of the situation. The whole area should be rezoned, not just a single lot.

Members of Council pointed out residents were at liberty to apply for area rezoning if they so desired.

MOVED by Ald. Puil,

THAT the rezoning application be approved subject to the conditions established by the Director of Planning and described above.

- CARRIED UNANIMOUSLY

2. Proposed Rezoning:
N/W Corner East 12th Avenue &
Lakewood Drive (2031 East 12th)

An application was considered from Mr. M. Katz, Architect, as follows:

LOCATION: NORTHWEST CORNER OF EAST 12TH AVENUE AND
LAKEWOOD DRIVE (2031 East 12th Avenue)
Lot 2 Except Parcel A of D, Block 163, D.L. 264A,
Plan 8723.

SPECIAL COUNCIL MEETING MINUTES

FEBRUARY 24, 2000

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

PRESENT: Mayor Philip Owen
 Councillor Fred Bass
 Councillor Jennifer Clarke
 Councillor Daniel Lee
 Councillor Don Lee
 Councillor Sandy McCormick
 Councillor Sam Sullivan

ABSENT: Councillor Lynne Kennedy
 Councillor Tim Louis
 Councillor Gordon Price (Sick Leave)
 Councillor George Puil (Civic Business)

CITY CLERK'S OFFICE: Tarja Tuominen, Meeting Coordinator

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.
