CITY CLERK”

By-law No. 5975 being a by-law to amend By-law No. 3575 being the Zoning and Development By-law

CITY OF VANCOUVER  
SPECIAL COUNCIL MEETING

A Special Meeting of the Council of the City of Vancouver was held on Thursday, October 24, 1985 in the Auditorium, Killarney Senior Secondary School, 6454 Killarney Street at approximately 7:30 p.m. for the purpose of holding a Public Hearing to amend the Zoning and Development By-law.

PRESENT: Mayor Harcourt  
Aldermen Bellamy, Brown, Campbell,  
Davies, Eriksen, Ford, Puil,  
Rankin, Yee and Yorke

CLERK TO THE COUNCIL: Mrs. J. Thomas

COMMITTEE OF THE WHOLE

MOVED by Ald. Brown,  
SECONDED by Ald. Ford,

THAT this Council resolve itself into Committee of the Whole, Mayor Harcourt in the Chair, to consider proposed amendments to the Zoning and Development By-law.

- CARRIED UNANIMOUSLY

1. Rezoning Application - 3090 Kingsway

The Council considered an application of Mr. Adolph Ingre, Professional Engineer, as follows:

REZONING: LOCATION - 3090 KINGSWAY (Lot A, Blocks 17, 20 and 21, D.L. 37, Plan 7014)

Present Zoning: RT-2 Two-Family Dwelling District and RS-1 One-Family Dwelling District

Proposed Zoning: CD-1 Comprehensive Development District

(i) The Draft CD-1 By-law, if approved, would accommodate the use and development of the site generally as follows:

- a maximum of 40 dwelling units comprising multiple dwellings eligible for funding under section 56.1 of the National Housing Act;
- accessory uses customarily ancillary to the above use;
- a maximum of 256 m<sup>2</sup> (2,756 sq. ft.) of common use amenity area;
- a maximum floor space ratio of 0.71, excluding the common use amenity area;
- a maximum height of 10.0m (32.8 ft.) above the base surface;
- provisions regarding off-street parking.

(ii) Any consequential amendments.

Cont'd.....

Rezoning Application - 3090 Kingsway (cont'd)

The Director of Planning recommended approval subject to the following conditions proposed for adoption by resolution of Council:

- (a) That the detailed scheme of development in a development permit application be first approved by the Director of Planning.
- (b) That the approved form of development be generally as prepared by Adolph Ingre and Associates, Consulting Engineers and Architects, stamped "Received, City Planning Department, August 22, 1985".

Mr. D. Thomsett, Zoning Division, reviewed the application and described a number of revisions introduced by the applicant in response to neighbourhood concerns expressed at public information meetings in the area. The relationship of the current development scheme to the Kingsway Task Force guidelines was also explained.

Mr. Robert Hodgins, Transportation Division, answered questions from Council members on improvements required to School Avenue. Traditionally, it was not a requirement of the Engineering Department that street improvements be part of a rezoning, but it would be possible to build curb and gutter on the north side now and complete the Local Improvement later when the full width of the street became available.

Mr. T. Ecker, for the applicant and Synala Housing Association, stated a number of design features had been incorporated into the development scheme to resolve some of the neighbourhood concerns - 40 units were proposed instead of 50, density had been reduced with higher density provided in the centre of the site and along Kingsway; massing would be compatible with adjacent single-family residences; access from the lane had been eliminated. Parking would be provided as required by the Director of Planning, i.e. 1.1 off-street parking spaces per unit, with 68% underground.

The Mayor advised a letter of intent dated October 24, 1985 had been circulated indicating Synala Housing Co-op supported local improvement measures for Kerr Street and School Avenue, even if the improvements were restricted to the north side of School Avenue and the west side of Kerr Street.

The Mayor called for speakers for or against the proposal and 28 delegations made presentations; 18 opposed and 10 in favour. The majority of the opponents contended multiple housing was inappropriate on the Kingsway site; the configuration of local streets was not conducive to the additional traffic that would be generated; and the single-family character of the area should be maintained. Those who spoke in favour pointed out the development proposal generally met the Kingsway Task Force guidelines and should be permitted to proceed.

The speakers were:

In favour:

Marjorie Scarfe, Joyce Station Committee (brief)  
Gavin Craig, Killarney Champlain Citizens' Association, (brief)  
Darryll Flamming, Vancouver Indian Centre Society  
D. J. Reid, Vancouver Indian Centre Society

2. Rezoning Application - 2860 Kingsway

Council considered an application of Mr. A. Ingre, Professional Engineer, as follows:

REZONING: LOCATION      2860 KINGSWAY - (Parcel 2 (Expl. Plan 9348) of Lot A, East Half Block 6, D.L. 50, Plan 1831)

Present Zone:            C-2 Commercial District and RS-1 One-Family Dwelling District

Requested Zone:        CD-1 Comprehensive Development District

(i) The Draft CD-1 By-law, if approved, would accommodate the use and development of the site generally as follows:

- a maximum of 73 dwelling units comprising multiple dwellings eligible for funding under section 56.1 of the National Housing Act;
- accessory uses, customarily ancillary to the above use;
- a maximum of 290 m<sup>2</sup> (3,121 sq. ft.) of common use amenity area;

(ii) Any consequential amendments.

The Director of Planning recommended approval subject to the following conditions proposed for adoption by resolution of Council:

- (a) That the detailed scheme of development in a development permit application be first approved by the Director of Planning.
- (b) That the approved form of development be generally as prepared by Adolph Ingre and Associates, Consulting Engineers and Architects, and stamped "Received, City Planning Department, August 22, 1985".
- (c) Prior to the enactment of the amending by-law, that the owners dedicate the east 16.5 ft. of Parcel 2 (Expl. Plan 9348) of Lot A, east half of Block 6, D.L. 50, Plan 1831, to the City for street purposes, with the plan showing the dedication to be registered in the Land Title Office.

Cont'd.....

Rezoning Application - 2860 Kingsway (cont'd)

- (d) Prior to the enactment of the amending by-law, that the owners dedicate a 20 ft. portion of Parcel 2 (Expl. Plan 9348) of Lot A, east half of Block 6, D.L. 50, Plan 1831 along the south property line, to the City for lane purposes, with the plan showing the dedication to be registered in the Land Title Office.

Mr. D. Thomsett reviewed the proposal noting that at the public information meetings area residents expressed virtually unanimous opposition and expressed the desire for development of the site with single-family dwellings and commercial use on Kingsway. As the site was not included in the Kingsway Task Force Guidelines, the developers utilized the guidelines for 3090 Kingsway in their revised scheme of development.

Mr. Thomsett advised the Public Hearing that the Zoning Division had that day received a petition containing 166 signatures strongly opposing the proposal (circulated to Council members).

Mr. Tom Ecker, for the applicant, stated the revised proposal had been scaled down significantly from that originally submitted to the community. More green space had been provided and the units had been designed to blend with the streetscape on Killarney and Dundee. Parking will be located underground, with the exception of four surface parking spaces for the handicapped, access would be split between Dundee and Killarney. Assurance had been given to the neighbours that mature landscaping would be developed at the south property line and care taken to not infringe on the visual privacy of adjacent residences.

The Mayor called for speakers for or against the proposal and presentations were made by 30 speakers, 19 in support, 11 opposed.

Those favouring the project cited the limited opportunities available to those requiring affordable housing and the role played by co-ops in being responsible neighbours and active participants in community life. Those who did not favour the project submitted the site should retain its existing zoning and if redevelopment took place it should be on the basis of single-family with commercial on Kingsway. Existing traffic problems were cited which would be exacerbated by multiple housing development - particularly those involving Dundee, Earles and access to Kingsway.

The speakers were:

In favour:

- Helen McLenaghan, President, Dundee Co-op
- Merilee Robson, Co-op Housing Federation of B.C.
- Darren Crum, Surrey resident
- Bill Simard, 5154 Joyce Street
- Marie MacKenzie, Secretary, Dundee Co-op

Engineering and Planning staff responded to residents' concerns respecting traffic circulation patterns and on-street parking problems in the area immediately south and west of the subject site. They also explained the rationale for the proposal for lane linkage between Earles and Dundee (extension of 38th Avenue).

Circulated to Council members at the Public Hearing were the following communications:

- Maurice Wawryk of Pacific Motel property, 2860 Kingsway, explaining details of the Interim Agreement and ownership of the property.
- Leslie and Gertrude Baines, opposed

**SPECIAL COUNCIL MEETING MINUTES**

**FEBRUARY 24, 2000**

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

**PRESENT:** Mayor Philip Owen  
 Councillor Fred Bass  
 Councillor Jennifer Clarke  
 Councillor Daniel Lee  
 Councillor Don Lee  
 Councillor Sandy McCormick  
 Councillor Sam Sullivan

**ABSENT:** Councillor Lynne Kennedy  
 Councillor Tim Louis  
 Councillor Gordon Price (Sick Leave)  
 Councillor George Puil (Civic Business)

**CITY CLERK'S OFFICE:** Tarja Tuominen, Meeting Coordinator

**COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,  
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

**1. Text Amendments: District Schedules, Official Development Plans and**

**CD-1 By-laws - Floor Space Exclusions**

### [Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

### Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

### Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

### Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute  
Bill McEwen, Masonry Institute of British Columbia (brief filed)  
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC  
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

### **Staff Closing Comments**

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

*RS-1 and RS-1S RT-4, etc.*

*(Italics denote amendment)*

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

**RISE FROM COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

**ADOPT REPORT OF COMMITTEE OF THE WHOLE**

MOVED by Cllr. Clarke,  
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY
