5. Off-Street Parking

Off-street parking shall be provided, developed and maintained in accordance with the applicable provisions of the Parking By-law, except that 608 off-street parking spaces shall be provided.

- CARRIED UNANIMOUSLY

NOTE FROM CLERK:

At the Regular Council Meeting on August 30, 1988, Council was advised delegations wishing to speak to the rezoning application for 901 Burrard Street arrived too late to address the Public Hearing, due to the reordering of the agenda items. Council, therefore, resolved that the approval given to this rezoning application be rescinded and a new Public Hearing be scheduled for Tuesday, September 13, 1988 at 2:00 p.m. in the Council Chamber.

4. Rezoning - 1500 Alberni Street

An application by Mr. James K.M. Cheng, Architect, was considered as follows:

REZONING: LOCATION - 1500 ALBERNI STREET (Lot G, Block 43, D.L. 185, Grp. 1, N.W.D.)

Present Zoning: DD Downtown District  
Proposed Zoning: CD-1 Comprehensive Development District

- (i) If approved, the CD-1 by-law would permit the use and development of the site generally as follows:
  - maximum of 75 dwelling units in a multiple dwelling;
  - maximum floor space ratio of 6.0;
  - maximum height of 300 ft.;
  - provisions regarding off-street parking.
- (ii) Any consequential amendments.

The Director of Planning recommended the application be approved subject to the following conditions proposed for adoption by resolution of Council:

- (a) That, prior to the enactment of the CD-1 by-law, the detailed scheme of development in a development permit application be first approved by the Director of Planning, having particular regard to:
  - design development of the tower and Alberni Street podium wall;
  - refinement of the entrance to provide a presence on Alberni Street;

Cont'd...

Clause 4 Continued

- design development of the open space to enhance pedestrian interest and define public benefits;
- implementation of noise abatement measures within the units, to the satisfaction of the Medical Health Officer;
- vehicular access as determined by Council.

(b) That the approved form of development be adopted in principle, generally as prepared by James K. M. Cheng, Architect, and stamped "Received, City Planning Department April 5, 1988," provided that the Director of Planning may allow minor alterations to this approved form of development when approving the detailed scheme of development as outlined in resolution (a) above.

Council was advised the Director of Planning proposes the following amendment to Section 5 (Off-Street Parking) of the Draft by-law:

"Section 5. Off-Street Parking

Off-street parking shall be developed and maintained in accordance with the applicable provisions of the Parking By-law and shall be provided at a minimum of 1 space for 80 square metre of gross floor area."

In his review of the application and the 28-storey residential development proposed, Mr. L. Beasley, Associate Director, Central Area Division, noted vehicular access had become a significant issue. There were four choices, namely:

- (1) Access from the lane only, preferred by the City Engineer.
- (2) Access from Alberni Street, preferred by the applicant and supported by the Director of Planning.
- (3) Access from Nicola Street only - 2 crossings and circular drive.
- (4) Access from Nicola Street (one crossing) and the lane, acceptable to the City Engineer, should Council endorse an on-site passenger loading facility.

The City Manager advised Council on July 26, 1988 he favoured option 2 but submitted the choice for Council's consideration. Council directed that the options for vehicular access to the site be discussed at the Public Hearing.

Mr. Cheng, applicant, urged Council approve the application with vehicular access from Alberni Street, which would permit an on-site covered dropoff and turnaround for taxis, etc.

The Mayor called for speakers for or against the application and two speakers addressed the Council:

Ms. Marian Ivanda, 1431 Haro Street, favoured the rezoning and urged a general cleanup of the area which was untidy and littered with "junk".

Mr. Peter Myers, 1400 Robson Street, opposed the rezoning. He advised the highrise would block his views of Coal Harbour and shut out sunlight. Alberni Street should remain lowrise.

Cont'd...

Clause 4 Continued

Also noted was a petition signed by 23 owners of suites at the Colonnade, 1455 Robson Street, objecting to the proposed change in zoning for the 1500 block Alberni on the ground that view lines from the Colonnade would be obstructed.

MOVED by Ald. Boyce,

THAT the application be approved subject to the conditions proposed by the Director of Planning as set out in this Minute of the Public Hearing;

FURTHER THAT

- vehicular access to the development be Alberni Street;
- Section 5 of the draft by-law be amended and approved as follows:

"Section 5. Off-Street Parking

Off-street parking shall be developed and maintained in accordance with the applicable provisions of the Parking By-law and shall be provided at a minimum of 1 space for 80 square metre of gross floor area."

- CARRIED UNANIMOUSLY

5. Text Amendment - Miscellaneous Text Amendments - Zoning and Development By-law, DD ODP and Parking By-law

An application by the Director of Planning was considered as follows:

TEXT AMENDMENT: MISCELLANEOUS TEXT AMENDMENTS - ZONING AND DEVELOPMENT BY-LAW, DD ODP AND PARKING BY-LAW

- (i) The proposed text amendments, if approved, would amend numerous sections and provisions of the Zoning and Development By-law, the Downtown District Official Development Plan, and the Parking By-law. Most of the proposed amendments are of a housekeeping nature, proposing clarification of various technical elements. Others are more substantial in nature, addressing provisions such as:
  - withholding demolition of a building on the Vancouver Heritage Inventory, dated August 1986, until all building permits for the new development are issuable;
  - adding a provision to the Zoning and Development By-law limiting the number of off-street parking spaces to the maximum prescribed in the Parking By-law, when such a provision exists;
  - restricting crawl spaces to a level at or below the finished grade in the RT and RS schedules
- (ii) Any consequential amendments.

The Director of Planning recommended approval.

Council was advised the Director of Planning has requested an amendment to the first subclause of (i) above, to read as follows:

- exception to withholding demolition of a building on the Vancouver Heritage Inventory, dated August, 1986, for hazardous conditions.

**FEBRUARY 24, 2000**

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

**PRESENT:** Mayor Philip Owen  
 Councillor Fred Bass  
 Councillor Jennifer Clarke  
 Councillor Daniel Lee  
 Councillor Don Lee  
 Councillor Sandy McCormick  
 Councillor Sam Sullivan

**ABSENT:** Councillor Lynne Kennedy  
 Councillor Tim Louis

**CITY CLERK'S OFFICE:** Tarja Tuominen, Meeting Coordinator

**COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,  
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

**1. Text Amendments: District Schedules, Official Development Plans and**

**CD-1 By-laws - Floor Space Exclusions**

### [Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

### Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

### Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

### Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute  
Bill McEwen, Masonry Institute of British Columbia (brief filed)  
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC  
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

### **Staff Closing Comments**

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

*RS-1 and RS-1S RT-4, etc.*

*(Italics denote amendment)*

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

**RISE FROM COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

**ADOPT REPORT OF COMMITTEE OF THE WHOLE**

MOVED by Cllr. Clarke,  
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.
