	City of Vancouver Planning Department	

Items 4(a) and 4(b) were considered by Council concurrently.

**4(a). Rezoning: 599 Carrall Street, Phase 2a**

**Summary:** The proposed rezoning from BCPED BC Place/Expo District to CD-I Comprehensive Development District would permit a 3-storey, 100-bed multi-level care facility to be administered by S.U.C.C.E.S.S.

The Director of Central Area Planning, on behalf of Land Use and Development, recommended approval of the application subject to the following conditions as proposed for adoption by resolution of Council:

- (a) THAT the proposed form of development be approved by Council in principle, generally as prepared by Davidson Yuen Simpson Architects, and stamped "Received City Planning Department, September 16, 1996", provided that the Director of Planning may allow minor alterations to this form of development when approving the detailed scheme of development as outlined in (b) below.
- (b) THAT, prior to approval by Council of the form of development, the applicant shall obtain approval of a development application by the Director of Planning, who shall have particular regard to the following:

Also before Council was a memorandum dated June 12, 1997 from Brent MacGregor, Deputy City Engineer regarding Block 17, Phase 2, parking issues. Also before Council was a memorandum from Dave Thomsett, Planner, which included Guidelines for 599 Carrall Street Phase 2b (Block 17).

**Staff Opening Comments**

Rob Whitlock, Planner advised these two applications represent the last stage in the rezoning of the City-owned Block 17, from BC Place - Expo District to two separate Comprehensive Development Districts, to provide for the following development:

- Phase 2a if approved, will see the development of a 100 bed multilevel care facility to be leased and operated by S.U.C.C.E.S.S.; proposed height to 14m or three storeys, with a floor space ratio of 1.80.
- Phase 2b If approved, would provide for development of a high-rise residential development and podium, with a proposed height of 70 meters and provision for commercial uses at grade along Keefer and Taylor Streets. The proposed FSR is 4.10.

cont'd....

**Clause No. 4(a) and 4(b) (cont'd)**

The total parking is almost 300 spaces , the majority of which will be underground. Two-thirds of this parking is provided for Phase 2b, which is intended for market-housing development. The parking standard is based on the higher rate of International Village, rather than the relatively low standards of Chinatown.

Mr. Whitlock reviewed two outstanding issues on the applications.

First the Seniors Committee has expressed concerns about tower location and its impact on surrounding development, particularly the Phase 1 development. The applicant and staff have spent considerable time looking at possible tower locations, and the location on the south side of Shanghai Alley at Taylor Street minimizes impacts on surrounding sites, including Phase 1 and Dr. Sun Yat Sen Gardens, but does not eliminate all impacts.

In terms of the issue of additional public parking, staff believe there is a sufficient supply in the area and additional public parking is not warranted on the site, and the additional requirements to provide such parking may have serious consequences for both sites, but S.U.C.C.E.S.S. particularly, both from timing and design perspectives.

Brent MacGregor, Deputy City Engineer, provided further explanation on his June 12, 1997 memorandum to Council. This memorandum contained the following conclusions:

- there is a surplus of parking in this area;
- added underground parking on this site would be very expensive (roughly \$20,000 per space or \$10 million for 500 spaces);
- there would be no return on this investment as revenues would at best only cover the higher operating costs of an underground parking facility;
- the underground parking would not be as attractive to the public as the parking in the above ground Chinatown Parkade or the surrounding streets;
- the design for additional underground parking would be difficult. The Market Housing project (phase 2b) and the Health Care facility (phase 2a) are now designed as separate buildings on separate legal lots, and this would have to be changed to accommodate more parking. In addition, any parking would have to be planned around the many building support structures. To accommodate all the parking proposed by the Chows would involve the construction of five levels of underground parking under the whole site;

cont'd....

**Clause No. 4(a) and 4(b) (cont'd)**

- the proposed buildings would also have to be considerably redesigned;
- redesign would mean considerable delay to both projects.

**Applicant Opening Comments**

John Davidson, Architect advised the scheme proposed for Block 17 will accommodate a range of activities. Great concern has been taken to ensure safety and security issues are addressed. Mr. Davidson urged Council not to approve additional public parking requirements as this could jeopardize the financing for the S.U.C.C.E.S.S. multi-care facility.

Anne Bancroft-Jones, Deputy Manager Real Estate Services, urged Council to delete the public parking component of the draft by-law.

**Summary of Correspondence**

A review of the correspondence indicated the following:

- 8 letters in support of the application;
- 21 letters requesting the rezoning be approved with the addition of public parking as included in the draft by-law.

**Speakers**

Mayor Owen called for speakers for and against the application and a total of 40 speakers addressed Council. Translation services were provided where required.

The following speakers urged Council to approve the application with the deletion of the additional public parking requirement:

- Harry Goldberg, Chinatown Historic Area Planning Committee
- Mason Loh, S.U.C.C.E.S.S. (petition on file)
- Maggie Ip
- Derick Cheng, Chinese Cultural Centre and Chinatown Merchants Association
- Bill Yee, Chinese Benevolent Association
- King Wong, Chinatown Merchants Association

Clause No. 4(a) and 4(b) (cont'd)

- Shuisee Lam, Association of Chinese with Disabilities
- Kelly Ip, Dr. Sun Yat Sen Garden Society
- Sandra Wilking
- John Lum, Shoh Yee Benevolent Association
- K.C. Li
- Dr. K.K. Wan
- Wilfred Wan, S.U.C.C.E.S.S.
- Rowena Au
- Rocky Yant
- Warner Wei
- Min Berka
- Raymond Hsiah, S.U.C.C.E.S.S.
- Chen Yu Chang
- Suet Hing Kwok
- Leung Meiwah
- Melaine Chan
- Jimmy Hum
- Betty Choi
- Connie Chan
- Lillian To, S.U.C.C.E.S.S.
- Au Yeung Hing
- Chithang Chan
- Manche Tam
- Helen Lam
- Wm. Tam
- Rosie Wong
- Gerald Schuck
- Ping Lee
- Ho Shurlam
- Frederick Jacobsen
- Mr. Kwan.

The foregoing speakers adopted their position on one or more of the following grounds:

- there is a well identified need in this community for the development of a multi-level care facility, and this application will respond to this need;
- the request for 500 additional public parking spaces at a cost of \$10 million is unrealistic;

cont'd....

**Clause No. 4(a) and 4(b) (cont'd)**

- there is no need for the additional public parking being requested. The parking garage owned by the Chinatown Merchants Association is currently not fully utilized and is not achieving an economic return on its investment. The City will not achieve a reasonable rate of return on its investment if it approves additional public parking;
- a requirement for additional public parking will impact the project schedule and jeopardize Provincial funding needed for the multi-care facility;
- S.U.C.C.E.S.S. has received 3,391 signatures on a petition supporting its position.

The following speakers supported the application, with the inclusion of additional public parking:

- Rod Chow, Public Parking Block 17 Group (briefs on file)
- Jack Chow, Public Parking Block 17 Group (briefs on file).

The foregoing supported their position based on the view this is a last chance opportunity to provide additional public parking and prevent a future deficiency. This is the only suitable site. This is the highest and best use of City land because:

- (a) There will be no delay and no impacts on proposed project;
- (b) All modern parkades downtown are underground;
- (c) This is an acknowledged major revenue generator for the City.

Jack Farley, Unit Block West Hastings spoke in favour of the application, and advised Council of the need for additional parking in the unit hundred block of West Hastings Street.

**Applicant Closing Comments**

The applicant offered no additional comments

**Staff Closing Comments**

Staff offered no additional comments.

cont'd....

**Clause No. 4(a) and 4(b) (cont'd)**

**Council Discussion**

During discussion of this matter, members of Council commented that it was not feasible to require additional public parking as part of this application.

MOVED by Cllr. Daniel Lee,

THAT the applications be approved, subject to the conditions as set out in this minute of the Public Hearing, with amendment to the Phase 2(a) draft by-law to delete Section 2(a) and with amendment to the Phase 2(b) draft by-law to delete Section 2.1 (e).

TO: Vancouver City Council

FROM: Director of Community Planning on behalf of Land Use and  
Development

SUBJECT: Form of Development: 555 Carrall Street  
DE402704 - CD-1 By-law Number 7852  
Owner of Development: S.U.C.C.E.S.S. Multi-Level Care Society

### **RECOMMENDATION**

*THAT the form of development for this portion (Phase 2a) of the CD-1 zoned site known as 555 Carrall Street be approved generally as illustrated in the Development Application Number DE402704, prepared by Davidson Yuen Simpson Architects and stamped "Received, City Planning Department September 25, 1997", provided that the Director of Planning may approve design changes which would not adversely affect either the development character of this site or adjacent properties.*

### **GENERAL MANAGER'S COMMENTS**

*The General Manager of Community Services RECOMMENDS approval of the foregoing.*

### **COUNCIL POLICY**

*There is no applicable Council policy except that Council did approve in principle the form of development for this site when the rezoning was approved, following a Public Hearing.*

### **PURPOSE**

In accordance with Charter requirements, this report seeks Council's approval for the form of development for the above-noted CD-1 zoned site.

## SITE DESCRIPTION AND BACKGROUND

At a Public Hearing on June 18, 1997, City Council approved a rezoning of this site from BCPED BC Place/Expo District to CD-1 Comprehensive Development District. Council also approved in principle the form of development for these lands. CD-1 By-law Number 7852 was enacted on March 10, 1998.

The site is located at the northwest corner of Keefer Street and Carrall Street. The site and surrounding zoning are shown on the attached Appendix 'A'.

Subsequent to Council's approval of the CD-1 rezoning, the Director of Planning approved Development Application Number DE402704. This approval was subject to various conditions, including Council's approval of the form of development. The latter condition is one of the few outstanding prior to permit issuance.

## DISCUSSION

The proposal involves the construction of a three-storey Special Needs Residential Facility containing 100 sleeping units for the United Chinese Community Enrichment Service Society with one level of underground parking having vehicular access from Keefer Street.

The proposed development has been assessed against the CD-1 By-law and responds to the stated objectives.

Simplified plans, including a site plan and elevations of the proposal, have been included in Appendix 'B'.

## CONCLUSION

The Director of Planning has approved Development Application Number DE402704, subject to various conditions to be met prior to the issuance of the development permit. One of these conditions is that the form of development first be approved by Council.

**SPECIAL COUNCIL MEETING MINUTES**

**FEBRUARY 24, 2000**

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

**PRESENT:** Mayor Philip Owen  
 Councillor Fred Bass  
 Councillor Jennifer Clarke  
 Councillor Daniel Lee  
 Councillor Don Lee  
 Councillor Sandy McCormick  
 Councillor Sam Sullivan

**ABSENT:** Councillor Lynne Kennedy  
 Councillor Tim Louis  
 Councillor Gordon Price (Sick Leave)

**CITY CLERK'S OFFICE:** Tarja Tuominen, Meeting Coordinator

**COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,  
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

**1. Text Amendments: District Schedules, Official Development Plans and**

**CD-1 By-laws - Floor Space Exclusions**

### [Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

### Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

### Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

### Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute  
Bill McEwen, Masonry Institute of British Columbia (brief filed)  
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC  
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

### **Staff Closing Comments**

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

*RS-1 and RS-1S RT-4, etc.*

*(Italics denote amendment)*

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

**RISE FROM COMMITTEE OF THE WHOLE**

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

**ADOPT REPORT OF COMMITTEE OF THE WHOLE**

MOVED by Cllr. Clarke,  
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.
