3.2 The following will be included in the computation of floor space ratio:

- (a) all floors of all buildings, both above and below ground level, to be measured to the extreme outer limits of the building.

3.3 The following will be excluded in the computation of floor space ratio:

- (a) open residential balconies or sundecks, and any other appurtenance which, in the opinion of the Director of Planning, are similar to the foregoing;

5.2 The Director of Planning, on the advice of the City Engineer, may grant a relaxation in the requirements of section 5.1 where enforcement would result in unnecessary hardship and where he is of the opinion that such relaxation will not adversely impact surrounding developments and residents or the parking needs of residents or visitors to the site.

6 Acoustics

All development permit applications require evidence in the form of a report and recommendations prepared by a person trained in acoustics and current techniques of noise measurement, demonstrating that the noise levels in those portions of the dwelling units listed below will not exceed the noise level set opposite such portions. For the purposes of this section the noise level is the A-weighted 24-hour equivalent (Leq) sound level and will be defined simply as noise level in decibels.

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
SECONDED by Cllr. Herbert,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law.

- CARRIED UNANIMOUSLY

1. REZONING and TEXT AMENDMENTS:

500-800 Canada Place Way and 999 Canada Place Way

Under the heading "Density" in the second paragraph of sub-section (a), which paragraph commences with the words "For density calculation purposes", by deleting the words "with a maximum gross land development not exceeding 14 acres".

- CARRIED UNANIMOUSLY

2. REZONING: 1742-1752 West 2nd Avenue

An application by Weber and Associates Architectural Consultants was reviewed as follows:

Summary: The proposed rezoning from IC-1 to CD-1 would permit development of a 4-storey mixed use building, with office, retail and service uses on the lower two floors, and residential units above. Underground parking would be provided.

The Director of Central Area Planning, on behalf of Land Use and Development, recommended approval subject to the following conditions as proposed for adoption by resolution of Council:

(a) THAT the proposed form of development be approved by Council in principle, generally as prepared by Weber and Associate Architectural Consultant, and stamped "Received City Planning Department, July 17, 1998", provided that the Director of Planning may allow minor alterations to this form of development when approving the detailed scheme of development as outlined in (b) below.

(b) THAT, prior to approval by Council of the form of development, the applicant shall obtain approval of a development application by the Director of Planning, who shall have particular regard to the following:

(i) design development to maintain and enhance the existing area character and ensure livability;

(ii) design development to the landscaping to

· ensure that the streetscape relates to the long-term public realm treatment in Burrard Slopes; and

· improve treatment of the lane;

(iii) design development to take into consideration, the principles of Crime Prevention Through Environmental Design (CPTED) having particular regard to reducing opportunities for theft in the underground parking.

(Note to Applicant: This can be achieved by ensuring the residential lobby elevator does not open to the commercial level. Keying the elevator for residential moving may be necessary.)

Clause No. 2 Continued

(c) THAT, prior to enactment of the CD-1 By-law, the registered owner shall, at no cost to the City:

(i) make suitable arrangements to the satisfaction of the Director of Legal Services and the Approving Officer to consolidate the site;

(ii) make arrangements to the satisfaction of the General Manager of Engineering Services and Director of Legal Services for:

- the dedication of the southerly 2 ft. portion of Lots 13, 14 and 41 for future lane widening purposes; and

- clarification of the covenant shown on the land title of the site;

(iii) make suitable arrangements to the satisfaction of the General Manager of Engineering Services for all electrical and telephone services to be undergrounded within and adjacent the site from the closest existing suitable service point;

(iv) make suitable arrangements to the satisfaction of the General Manager of Engineering Services and the General Manager of the Park Board for the provision of street trees adjacent to the site; and

(v) execute a legal agreement to the satisfaction of the Director of Legal Services providing that owners will not discriminate against families with children in the sale of residential units.

Also before Council was a memo from L. Beasley, Co-Director of Planning, responding to a September 10, 1998 request from Councillor Sullivan that staff provide an ecological footprint analysis of this site.

Lynda Challis, Planner, advised that the application is consistent with related policy and supported by staff.

Paul Pinsker, Transportation Engineering, provided information on traffic conditions, as requested by Council at its meeting of September 15, 1998. The major issue is likely to be connection to Vanier Park. A consultant study is underway; Council will be advised of the results and there will be public consultation. Mr. Pinsker also reviewed a neighbourhood concern regarding parking.

Clause No. 2 Continued

In response to a query, Mr. Beasley advised that ecological footprint analysis involves too many parameters for a useful site-by-site breakdown, and its usefulness applies to larger areas. Further experience may make it feasible for analysis of smaller sites.

Thom Ecker, representing the applicant, asked that Council approve one additional use to permit space to be leased to a car dealer for the purpose of leasing vehicles only.

Council was advised there had been no correspondence received on this application.

Summing up, Ms. Challis noted that car rental is already a permitted use, and that leasing, due to its longer-term nature, would likely have less impact than rental. Staff would have no objection to this additional use.

MOVED by Cllr. Chiavario,

THAT the application be approved with the conditions set out in this Minute of the Public Hearing, and with the following additional use:

Vehicle Dealer, except that service, repair, and rental of vehicles for less than a monthly period are not permitted.

- CARRIED UNANIMOUSLY

3. REZONING: 2705-2735 West 10th Avenue

Council heard seven of thirty-three speakers registered on this item, and decided to recess due to time constraints. The Public Hearing will be reconvened on a date to be determined. This item will be minuted concurrently for continuity and easier reading.

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Herbert,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Daniel Lee,
SECONDED BY Cllr. Herbert,

THAT the report of the Committee of the Whole be adopted and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments..

- CARRIED UNANIMOUSLY

SPECIAL COUNCIL MEETING MINUTES

FEBRUARY 24, 2000

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

PRESENT: Mayor Philip Owen
 Councillor Fred Bass
 Councillor Jennifer Clarke
 Councillor Daniel Lee
 Councillor Don Lee
 Councillor Sandy McCormick
 Councillor Sam Sullivan

ABSENT: Councillor Lynne Kennedy
 Councillor Tim Louis
 Councillor Gordon Price (Sick Leave)
 Councillor George Puil (Civic Business)

CITY CLERK'S OFFICE: Tarja Tuominen, Meeting Coordinator

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.
