6. Rezoning: 600 Nicola Street

An application by Henriquez Partners was considered as follows:

Summary: To rezone the site and amend the Coal Harbour Official Development Plan to permit the development of a commercial, residential and "live/work" building.

The Director of Current Planning recommended approval, subject to the conditions set out in the agenda of the Public Hearing.

Staff Comments

Michael Gordon, Planner, advised he was present to answer questions.

Applicant Comments

Richard Henriquez, representing the applicant, advised the proposed development

was designed with extensive in-put from City staff and neighbours. The applicant has responded to concerns with views. The proposed development is a mixed use building, with office and live/work uses. The proposal is supported by the Urban Design Panel and is compatible with the neighbours.

Summary of Correspondence

There was no correspondence received on this application since the date it was referred to Public Hearing.

Speakers

Deputy Mayor Puil called for speakers for and against the application.

Duncan Chuk expressed concerns with the location of the fire exit in the building at 1477 Pender Street in relation to the proposed development at 600 Nicola Street and with possible increased traffic congestion.

Applicant Closing Comments

Mr. Henriquez advised the applicant could provide an easement to allow the tenants in the building at 1477 Pender to exit from Nicola Street.

Staff Closing Comments

Mr. Gordon advised the proposed development will be a small building compared to the other buildings going up in the area and therefore the traffic impacts will be insignificant.

MOVED by Cllr. Price,

THAT the application by Henriquez and Partners Architects to rezone from CWD (Central Waterfront District) to CD-1 (Comprehensive Development District) for 600 Nicola Street (Lot 7, Block 42, District Lot 185, Plan LMP12354) to permit a commercial, residential and 'live/work' building, be approved, subject to the following conditions:

(a) THAT the proposed form of development be approved by Council in principle, generally as prepared by Henriquez Partners, Architects and stamped "Received, City Planning Department, July 9, 1999" provided that the Director of Planning may allow minor alterations to this form of development when approving the detailed scheme of development as outlined in (b) below.

(b) THAT, prior to approval by Council of the form of development, the applicant shall obtain approval of a development application by the Director of Planning, who shall have particular regard to the following:

(i) Design development to the treatment of the lower street base portion of the building facades, to be primarily finished with masonry, stone or concrete articulated to reflect maritime structures occurring on major urban waterfronts, consistent with guidelines approved for the adjacent Marina neighbourhood.

Note to Applicant: Consideration should be given to the use of strong brick or

stone masonry or concrete frames with a fine grain detailing and articulation at ground level.

(c) THAT, prior to enactment of the amending By-law, and at no cost to the City, the registered owner shall:

(i) Register agreements to the satisfaction of the Director of Planning and the Director of Legal Services, providing easements in favour of owners of two abutting sites - site number 1 encompassing Lots 4,5 and 6 and site number 2 encompassing Lot A to provide exiting from the rear of each of the existing buildings on these sites across lot 7 to the north if exiting requirements of the Vancouver Building By-law cannot reasonably be met in another way, and giving the City a Section 219 covenant by which the Owner agrees to not hinder use of the easements.

(ii) Make suitable arrangements, to the satisfaction of the General Manager of Engineering Services, for all electrical and telephone services to be underground within and adjacent to the site from the closest, existing suitable service point.

(iii) Obtain and submit to the City copies of all soils studies and the consequential Remediation Plan for the subject site, approved by the Ministry of Environment and acceptable to the City. Execute agreements satisfactory to the Director of Legal Services and City Manager, in consultation with appropriate Department Heads, obligating the property owner to remediate to

the satisfaction of the Ministry of Environment any contaminated soils on the subject site in accordance with a Remediation Plan approved by the Ministry of Environment and acceptable to the City.

(iv) Execute agreements satisfactory to the Director of Legal Services and City Manager, in consultation with appropriate Department Heads obligating the property owner to indemnify the City, its employees against any liability or costs which may be incurred as a result of the presence of contaminated soils on the subject site, including costs arising as a result of any failure to carry out the aforementioned approved Remediation Plan and provide such security for the indemnity to the satisfaction of the Director of Legal Services;

(v) As required by the City Engineer and the City's Director of Legal Services in their discretion, do all things and/or enter into such agreements deemed necessary to fulfill the requirements of Section 571(B) of the Vancouver Charter.

(vi) Execute a Section 219 Covenant, satisfactory to the Director of Legal Services, that there will be no occupancy of any buildings or improvements on the subject site constructed pursuant to this rezoning until the contaminated soils on the subject site have been remediated to the satisfaction of the Ministry of Environment in accordance with a Remediation Plan approved by the Ministry of Environment and acceptable to the City.

Where the Director of Legal Services deems appropriate, the preceding agreements are to be drawn, not only as personal covenants of the property owner, but also as Covenants pursuant to Section 219 of the Land Title Act.

The preceding agreements are to be registered in the appropriate Land Title Office, with priority over such other liens, charges and encumbrances affecting the subject site as is considered advisable by the Director of Legal Services, and otherwise to the satisfaction of the Director of Legal Services prior to enactment of the by-law;

provided, however, the Director of Legal Services may, in her sole discretion and on terms she considers advisable, accept tendering of the preceding agreements for registration in the appropriate Land Title Office, to the satisfaction of the Director of Legal Services, prior to enactment of the by-law.

The preceding agreements shall provide security to the City including indemnities, warranties, equitable charges, letters of credit and withholding of permits, as deemed necessary by and in a form satisfactory to the Director of Legal Services. The timing of all required payments shall be determined by the appropriate City official having responsibility for each particular agreement, who may consult other City officials and City Council.

SPECIAL COUNCIL MEETING MINUTES

FEBRUARY 24, 2000

A Special Meeting of the Council of the City of Vancouver was held on Thursday, February 24, 2000, at 7:35 p.m., in Council Chambers, Third Floor, City Hall, for the purpose of holding a Public Hearing to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

 Councillor Fred Bass
 Councillor Jennifer Clarke
 Councillor Daniel Lee
 Councillor Don Lee
 Councillor Sandy McCormick
 Councillor Sam Sullivan

ABSENT: Councillor Lynne Kennedy
 Councillor Tim Louis
 Councillor Gordon Price (Sick Leave)
 Councillor George Puil (Civic Business)

CITY CLERK'S OFFICE: Tarja Tuominen, Meeting Coordinator

COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,
 SECONDED by Cllr. Daniel Lee,

THAT this Council resolve itself into Committee of the Whole, Mayor Owen in the Chair, to consider proposed amendments to the Zoning and Development By-law and Official Development Plans.

- CARRIED UNANIMOUSLY

1. Text Amendments: District Schedules, Official Development Plans and

CD-1 By-laws - Floor Space Exclusions

[Barrett Commission]

An application by the Director of Current Planning was considered as follows:

Summary: The proposed text amendments would provide floor space exclusions to provide construction incentives to control building envelope leaks.

The Director of Current Planning recommended approval.

Staff Comments

Jacqui Forbes-Roberts, General Manager of Community Services, provided a brief introduction to the report, noting the proposed text amendments would affect new construction and repairs and restoration of existing buildings. Ms. Forbes-Roberts also requested an amendment to the proposed draft by-law to amend By-law 3575 to add RS1 to Section 4.7.3, (d).

Doug Watts, Building Envelope Specialist, with the aid of a slide presentation, described the specifics of the technical and different design issues of the proposed amendments, and explained what steps other municipalities have taken to address the recommendations arising from the Barrett Commission.

Summary of Correspondence

Council was advised the following correspondence was received since the date the application was referred to Public Hearing:

one letter in support of 'Option A'.

Speakers

Mayor Owen called for speakers for and against the application.

The following spoke in support of 'Option A':

John Fowler, Canadian Precast/Prestressed Concrete Institute
Bill McEwen, Masonry Institute of British Columbia (brief filed)
Peter Reese

The foregoing speakers supported 'Option A' based on one or more of the following points:

application of the current FSR calculations has prevented a wide-spread use of precast concrete exterior walls; there have been very few problems with the use of pre-cast concrete, which has proven to be a versatile and durable material;

thicker exterior walls are better walls, because they can include an airspace cavity behind the cladding which provides a "rainscreen" system, more efficient insulation, thicker, more durable cladding materials; current FSR calculations discourage the foregoing;

the proposed changes in FSR definitions will immediately encourage better wall design;

brick and stone-faced walls should be encouraged.

The following generally supported 'Option A' but felt the proposed text amendments should be referred back to staff for further study and discussion with the industry:

John O'Donnell, AIBC
Stuart Howard, Vancouver Planning Coalition

The following is a summary of the foregoing speakers' comments:

Option 'A' is supported in principle; however the text amendments also should address overhangs, balconies, elevated walkways, yard setbacks, and site coverage; staff should accept the electronic calculation of areas and the calculations of the Architect, given under seal; letters of assurance from a building envelope specialist are redundant at an early stage; the proposed text amendments should cover everything instead of the City issuing administrative bulletins to address further changes.

Staff Closing Comments

Ralph Segal, Planner; Eric Fiss, Planner; and Doug Watts responded to the issues raised by the speakers: the proposed text amendments are the result of a fair bit of consultation with the industry; a building envelope specialist is required to be involved in the process earlier as technical details are to be submitted at the development permit stage; staff are taking a further look at other issues, such as recesses, balconies and walkways.

Ms. Forbes-Roberts advised Council may proceed with the proposed amendments to the floor space exclusions and request staff to come back with additional amendments. Staff and the industry would prefer the FSR exclusions not be delayed.

MOVED by Cllr. Don Lee,

A. THAT the application by the Director of Current Planning to amend various District Schedules, Official Development Plans and CD-1 By-laws to provide floor space exclusions to provide construction incentives to control building envelope leaks be approved.

FURTHER THAT the draft By-law 3575, section 4.7.3, be amended as follows:

(d) as clause (h) in the following district schedules:

RS-1 and RS-1S RT-4, etc.

(Italics denote amendment)

B. THAT staff report back on other aspects affecting leakage of buildings, such as overhangs, protection of upper balconies, recesses, etc.

- CARRIED UNANIMOUSLY

RISE FROM COMMITTEE OF THE WHOLE

MOVED by Cllr. Don Lee,

THAT the Committee of the Whole rise and report.

- CARRIED UNANIMOUSLY

ADOPT REPORT OF COMMITTEE OF THE WHOLE

MOVED by Cllr. Clarke,
SECONDED BY Cllr. Don Lee,

THAT the report of the Committee of the Whole be adopted, and the Director of Legal Services be instructed to prepare and bring forward the necessary by-law amendments.

- CARRIED UNANIMOUSLY

The Special Council adjourned at 9:20 p.m.

ADMINISTRATIVE REPORT

Date: May 15, 2000
Author/Local: M.Cho/6496
RTS No. 01489
CC File No. 2606

Council: May 30, 2000

TO: Vancouver City Council
FROM: Director of Current Planning
SUBJECT: Form of Development: 1478 West Hastings Street
DE404727 - CD-1 By-law Number 8130
Owner of Development: Canadian Pacific Properties Inc.

RECOMMENDATION

THAT the form of development for this portion of the CD-1 zoned site known as 600 Nicola Street (1478 West Hastings Street) being the application address be approved generally as illustrated in the Development Application Number DE404727, prepared by Henriquez & Partners and stamped "Received, City Planning Department December 15, 1999", provided that the Director of Planning may impose conditions and approve design changes which would not adversely affect either the development character of this site or adjacent properties.

GENERAL MANAGER'S COMMENTS

The General Manager of Community Services RECOMMENDS approval of the foregoing.

COUNCIL POLICY

There is no applicable Council policy except that Council did approve in principle the form of development for this site when the rezoning was approved, following a Public Hearing.

PURPOSE

In accordance with *Charter* requirements, this report seeks Council's approval for the form of development for the above-noted CD-1 zoned site.

SITE DESCRIPTION AND BACKGROUND

At a Public Hearing on October 19, 1999, City Council approved a rezoning of this site

from CWD Central Waterfront District to CD-1 Comprehensive Development District. Council also approved in principle the form of development for these lands. CD-1 By-law Number 8130 was enacted on November 30, 1999. Companion Guidelines (1400 West Hastings and Pender Street Guidelines) were also adopted by Council at that time.

On February 24, 2000 at a Public Hearing, Council approved amendments to provide floor space exclusions to provide construction incentives to control building envelope leaks. This amendment (By-law Number 8169) was enacted on March 14, 2000.

The site and surrounding zoning are shown on the attached Appendix 'A'.

Subsequent to Council's approval of the CD-1 rezoning, the Director of Planning approved Development Application Number DE404727. This approval was subject to various conditions, including Council's approval of the form of development. The latter condition is one of the few outstanding prior to permit issuance.

DISCUSSION

The proposal involves the construction of a seven-storey building containing 42 "live/work" units and two-levels of underground parking having vehicular access from West Hastings Street. The proposed development has been assessed against the CD-1 By-law and Council-approved guidelines and responds to the stated objectives.

Simplified plans, including a site plan and elevations of the proposal, have been included in Appendix 'B'.

CONCLUSION

The Director of Planning has approved Development Application Number DE404727, subject to various conditions to be met prior to the issuance of the development permit. One of these conditions is that the form of development first be approved by Council.
