Note: Information included in square brackets [] identifies the by-law numbers and dates for the amendments to By-law No. 9081 or provides an explanatory note.

- 5.2** Computation of floor space ratio and floor area must include all floors having a minimum ceiling height of 1.2 m, including earthen floor, both above and below ground level, to be measured to the extreme outer limits of the building. [9311; 06 06 13]

7 Parking and loading, and bicycle storage

7.1 Any development or use of the site requires the provision, development, and maintenance of off-street parking, loading, and bicycle storage in accordance with the requirements of, and relaxations, exemptions and mixed use reductions in, the Parking By-law, except that the following will apply:

- (a) parking for dwelling uses must comply with the requirements of section 4.3.9 of the Parking By-law in effect on the date of enactment of this By-law; and
- (b) for the purpose of calculating any required or permitted parking, loading, bicycle, or passenger spaces, Council deems general office live-work to be a multiple dwelling use.

7.2 The Director of Planning and General Manager of Engineering Services, on conditions that are satisfactory to them, may allow the substitution of co-operative vehicles and associated parking spaces for required parking spaces at 1:3 ratio, up to 1 co-operative vehicle for each 60 dwelling units, rounded to the nearest whole number.

8 Acoustics

8.1 All development permit applications require evidence in the form of a report and recommendations prepared by a person trained in acoustics and current techniques of noise measurement, demonstrating that the noise levels in those portions of the dwelling units listed below do not exceed the noise level set opposite such portions. For the purposes of this section, the noise level is the A-weighted 24-hour equivalent (Leq) sound level and is defined simply as noise level in decibels.

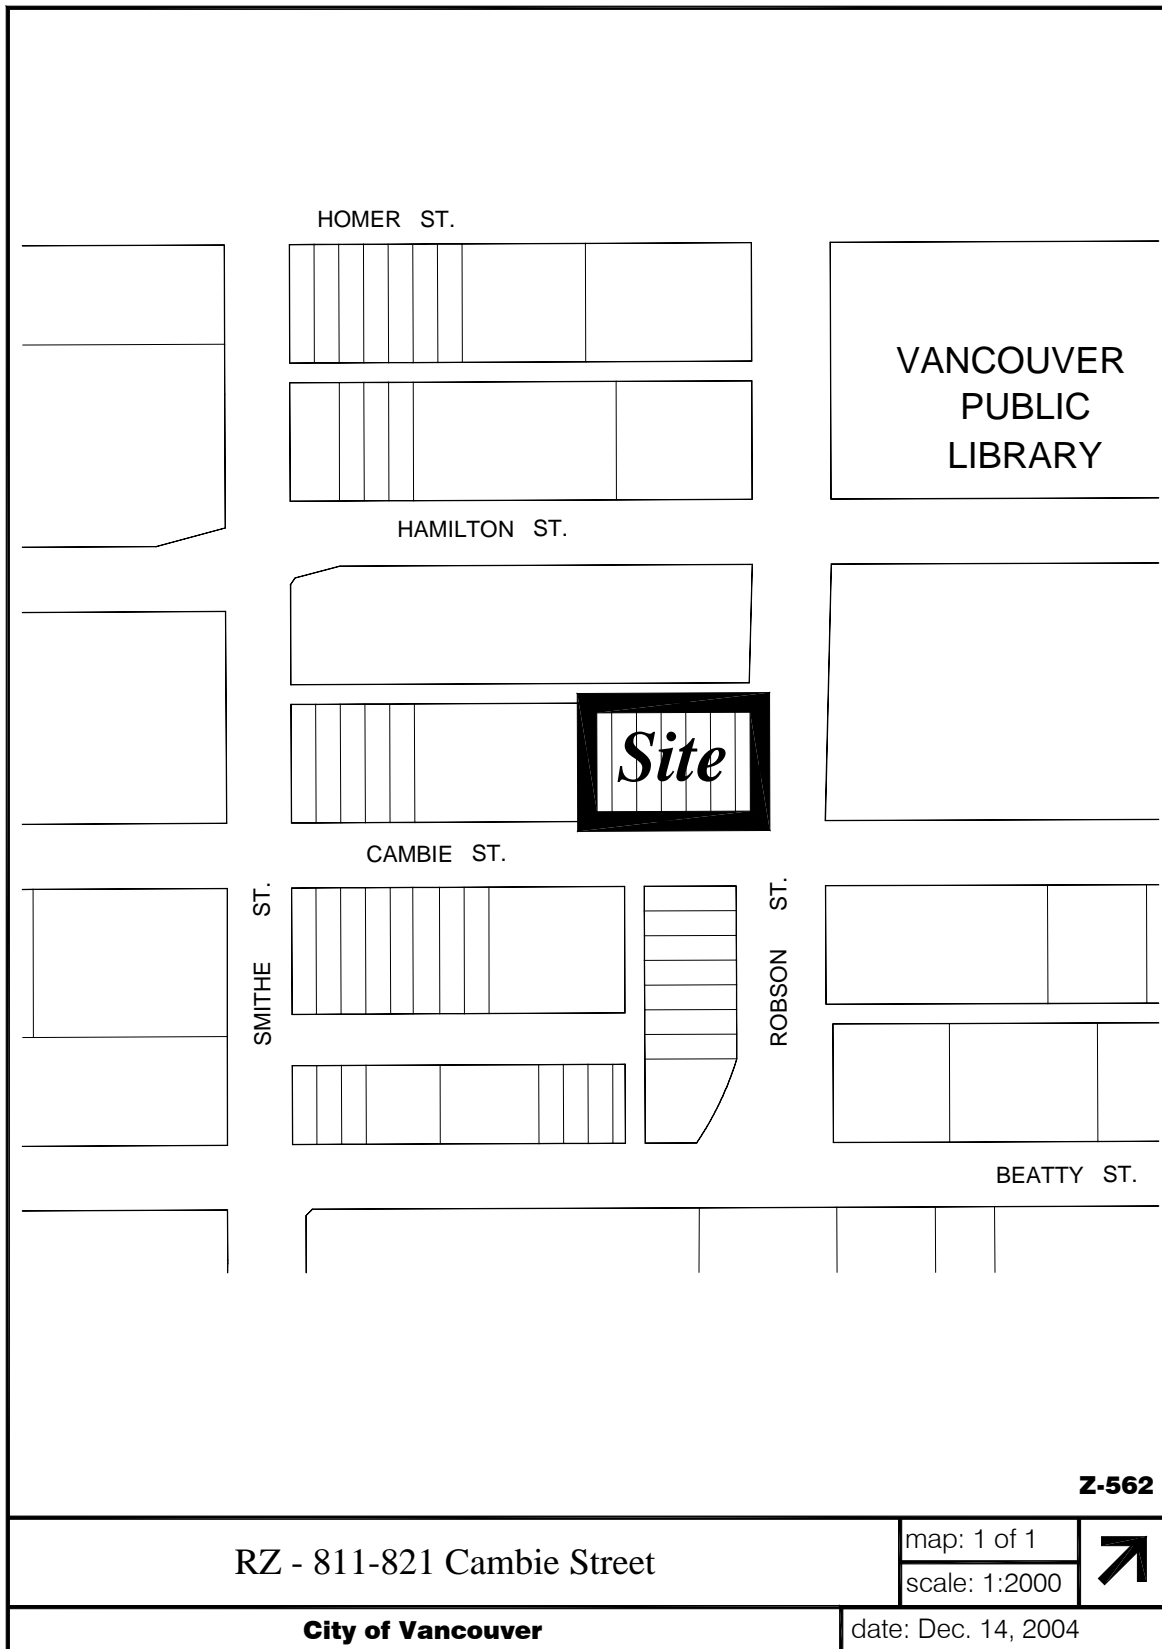

Portions of dwelling units	Noise levels (Decibels)
bedrooms	35
living, dining, recreation rooms	40
kitchen, bathrooms, hallways	45

8.2 The noise level in general office live-work must not exceed 40 decibels.

9 Severability

A decision by a court that any part of this By-law is illegal, void, or unenforceable is not to affect the balance of the By-law.

10 *[Section 10 is not reprinted here. It contains a standard clause including the Mayor and City Clerk's signature to pass the by-law and certify the by-law number and date of enactment.]*
