All development permit applications require evidence in the form of a report and recommendations prepared by a person trained in acoustics and current techniques of noise measurement, demonstrating that the noise levels in those portions of the dwelling units listed below do not exceed the noise level set opposite such portions. For the purposes of this section, the noise level is the A-weighted 24-hour equivalent (Leq) sound level and is defined simply as noise level in decibels.

bedrooms	35
living, dining, recreation rooms	40
kitchen, bathrooms, hallways	45

8      **Severability**  
A decision by a court that any part of this By-law is illegal, void, or unenforceable is not to affect the balance of the By-law.

9      *[Section 9 is not reprinted here. It contains a standard clause including the Mayor and City Clerk's signature to pass the by-law and certify the by-law number and date of enactment.]*
