- 3.4 Computation of floor space ratio must exclude:
- (a) open residential balconies or sundecks and any other appurtenances which, in the opinion of the Director of Planning, are similar to the foregoing, provided that the total area of all exclusions does not exceed eight percent of the residential floor area being provided;
 - (b) patios and roof gardens, provided that the Director of Planning first approves the design of sunroofs and walls;
 - (c) the floors or portions of floors used for off-street parking and loading, the taking on or discharging of passengers, bicycle storage, heating and mechanical equipment, or uses which, in the opinion of the Director of Planning, are similar to the foregoing, that, for each area, is at or below the base surface, provided that the maximum exclusion for a parking space shall not exceed 7.3 m in length;

- (h) above grade floor area built as open to below, designed in combination with venting skylights, opening clerestory windows or other similar features which, in the opinion of the Director of Planning, reduce energy consumption or improve natural light and ventilation to a maximum exclusion of one percent of permitted floor area.

3.5 The use of floor space excluded under section 3.4 must not include any purpose other than that which justified the exclusion.

4 Building height

The building height, measured above base surface, must not exceed 13.7 m.

5 Horizontal Angle of Daylight

5.1 Each habitable room must have at least one window on an exterior wall of a building.

5.2 The location of each such exterior window must allow a plane or planes extending from the window, and formed by an angle of 50 degrees, or two angles with a sum of 70 degrees, to encounter no obstruction over a distance of 24.0 m.

5.3 Measurement of the plane or planes, referred to in section 5.2, must be horizontally from the centre of the bottom of each window.

5.4 If:

- (a) the Director of Planning or Development Permit Board first considers all the applicable policies and guidelines adopted by Council; and

the Director of Planning or Development Permit Board may relax the horizontal angle of daylight requirement.

5.5 An obstruction referred to in section 5.2 means:

- (b) the largest building permitted under the zoning on any site adjoining CD-1 (583).

For the purposes of this section, the noise level is the A-weighted 24-hour equivalent (Leq) sound level, and is defined simply as noise level in decibels.
